ARC RESOURCES LTD.

2023

Second Quarter Report

For the Three Months Ended June 30, 2023

Q2 2023

ARX

Corporate Profile

ARC Resources Ltd. ("ARC") is a leading Canadian oil and gas producer committed to delivering strong operational and financial performance and upholding values of operational excellence and responsible development. With operations focused in the Montney resource play in western Canada, ARC's portfolio is made up of resource-rich properties that provide both near-term and long-term investment opportunities. ARC pays a quarterly dividend to shareholders and its common shares trade on the Toronto Stock Exchange under the symbol ARX.

ARC RESOURCES LTD. REPORTS SECOND QUARTER 2023 RESULTS

NEWS RELEASE

Calgary, August 2, 2023 (ARX - TSX) ARC Resources Ltd. ("ARC" or the "Company") today reported its second quarter 2023 financial and operational results.

HIGHLIGHTS

- ARC delivered second quarter 2023 production of 343,630 boe(1) per day (63 per cent natural gas and 37 per cent crude oil and liquids(2)). Production increased two per cent year-over-year, and 13 per cent on a per share(3) basis.
    - Second quarter production was impacted by approximately 4,100 boe per day related to the wildfires in Alberta. Production was fully restored in the quarter, with June production averaging 355,000 boe per day. ARC's assets, including its infrastructure, did not sustain any damages.
- ARC generated funds from operations of $561 million(4) ($0.92 per share(5)) and free funds flow of $144 million(6) ($0.24 per share(7)). ARC recognized cash flow from operating activities of $551 million ($0.90 per share) and net income of $279 million ($0.46 per share).
- ARC distributed approximately 110 per cent of free funds flow, or $159 million, to shareholders during the second quarter. Through the first six months of 2023, ARC has returned 107 per cent of free funds flow to shareholders (90 per cent net of proceeds from divestitures).
    - ARC declared dividends of $104 million or $0.17 per share and repurchased 3.1 million common shares for $55 million under its normal course issuer bid ("NCIB").
    - Since renewing its NCIB on September 1, 2022, ARC has repurchased 47 million common shares, representing 72 per cent of its allotment under the current NCIB. ARC intends to continue to allocate free funds flow to share repurchases, and plans to renew the NCIB for an additional 10 per cent of the public float (as defined by the TSX) on September 1, 2023, subject to review and approval by the TSX.
- Capital expenditures in the second quarter totaled $417 million(6). Through the first half of 2023, capital expenditures totaled $904 million, representing approximately 50 per cent of the 2023 capital budget.
- During the second quarter, ARC completed its 80 MMcf per day Sunrise facility expansion and executed turnarounds at Kakwa, both on-time and within budget. In addition, the Company drilled 32 wells and completed 49 wells, providing operational momentum for the second half of 2023.
- Guidance for 2023 is unchanged. Planned capital expenditures remain between $1.8 to $1.9 billion(8) and full-year production is forecast to average between 350,000 and 355,000 boe per day (62 per cent natural gas and 38 per cent crude oil and liquids).
- As of June 30, 2023, ARC's long-term debt balance was $1.1 billion and its net debt balance was $1.3 billion(4) or 0.4 times funds from operations(4).

ARC's unaudited condensed consolidated financial statements and notes (the "financial statements") and Management's Discussion and Analysis ("MD&A") as at and for the three and six months ended June 30, 2023, are available on ARC's website at www.arcresources.com and under ARC's SEDAR+ profile at www.sedarplus.ca. The disclosure under the section entitled "Non-GAAP and Other Financial Measures" in ARC's MD&A as at and for the three and six months ended June 30, 2023 (the "Q2 2023 MD&A") is incorporated by reference into this news release.

(1) ARC has adopted the standard six thousand cubic feet ("Mcf") of natural gas to one barrel ("bbl") of crude oil ratio when converting natural gas to barrels of oil equivalent ("boe"). Boe may be misleading, particularly if used in isolation. A boe conversion ratio of 6 Mcf:1 bbl is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead. Given that the value ratio based on the current price of crude oil as compared to natural gas is significantly different than the energy equivalency of the 6:1 conversion ratio, utilizing the 6:1 conversion ratio may be misleading as an indication of value.

(2) Throughout this news release, crude oil ("crude oil") refers to light, medium, and heavy crude oil product types as defined by National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities* ("NI 51-101"). Condensate is a natural gas liquid as defined by NI 51-101. Throughout this news release, natural gas liquids ("NGLs") comprise all natural gas liquids as defined by NI 51-101 other than condensate, which is disclosed separately. Throughout this news release, crude oil and liquids ("crude oil and liquids") refers to crude oil, condensate, and NGLs.

(3) Represents average daily production divided by the diluted weighted average common shares outstanding for the respective three months ended June 30.

(4) See Note 10 *"Capital Management"* in the financial statements and *"Non-GAAP and Other Financial Measures"* in the Q2 2023 MD&A for information relating to this capital management measure, which information is incorporated by reference into this news release.

(5) See *"Non-GAAP and Other Financial Measures"* in the Q2 2023 MD&A for an explanation of the composition of this supplementary financial measure, which information is incorporated by reference into this news release.

(6) Non-GAAP financial measure that is not a standardized financial measure under International Financial Reporting Standards ("IFRS") and may not be comparable to similar financial measures disclosed by other issuers. See *"Non-GAAP and Other Financial Measures"* in the Q2 2023 MD&A for information relating to this non-GAAP financial measure, which information is incorporated by reference into this news release. See *"Non-GAAP and Other Financial Measures"* of this news release for the most directly comparable financial measure disclosed in ARC's current financial statements to which such non-GAAP financial measure relates and a reconciliation to such comparable financial measure.

(7) Non-GAAP ratio that is not a standardized financial measure under IFRS and may not be comparable to similar financial measures disclosed by other issuers. Free funds flow, a non-GAAP financial measure, is used as a component of the non-GAAP ratio. See *"Non-GAAP and Other Financial Measures"* in the Q2 2023 MD&A for the non-GAAP ratio for the comparative period and other information relating to this non-GAAP ratio, which information is incorporated by reference into this news release.

(8) Refer to the section entitled *"About ARC Resources Ltd."* contained within the Q2 2023 MD&A for historical capital expenditures, which information is incorporated by reference into this news release.

GUIDANCE & OUTLOOK

2023 Guidance

Guidance for 2023 is unchanged and outlined in the table below.

- Full-year 2023 production is forecast to average between 350,000 to 355,000 boe per day (62 per cent natural gas and 38 per cent crude oil and liquids), which implies average production of approximately 360,000 boe per day in the second half of 2023 driven primarily from volume growth at Kakwa, Greater Dawson, and Sunrise.
- ARC plans to invest between $1.8 billion and $1.9 billion in capital expenditures for 2023, unchanged from previous guidance.

	2023 Guidance	2023 YTD Actual	% Variance from 2023 Guidance
Crude oil (bbl/day)	**8,500 - 9,000**	7,981	(6)
Condensate (bbl/day)	**76,000 - 78,000**	73,287	(4)
Crude oil and condensate (bbl/day)	**84,500 - 87,000**	81,268	(4)
Natural gas (MMcf/day)	**1,295 - 1,305**	1,277	(1)
NGLs (bbl/day)	**49,000 - 51,000**	46,991	(4)
Total (boe/day)	**350,000 - 355,000**	341,018	(3)
Expenses ($/boe)(1)			
Operating	**4.45 - 4.85**	4.66	—

Capital expenditures ($ billions)(3)	**1.8 - 1.9**	0.9	n/a

(1) See *"Non-GAAP and Other Financial Measures"* in the Q2 2023 MD&A for an explanation of the composition of these supplementary financial measures, which information is incorporated by reference into this news release.
(2) Excludes accretion of ARC's asset retirement obligation.
(3) Refer to the section entitled *"About ARC Resources Ltd."* contained within the Q2 2023 MD&A for historical capital expenditures, which information is incorporated by reference into this news release.

Refer to the section entitled *"Annual Guidance"* in ARC's MD&A for the three and six months ended June 30, 2023, available on ARC's website at www.arcresources.com and under ARC's SEDAR+ profile at www.sedarplus.ca.

Outlook

Now in its 28th year of operations, ARC has transformed to become the largest condensate producer and largest Montney producer in Canada, establishing its large Montney position early and investing in organic development and counter-cyclical acquisitions and divestitures. The focus remains centered on delivering sustainable and profitable growth, adhering to its guiding principles of capital discipline, financial strength, high-quality assets and people, and returns to shareholders.

The characteristics of ARC today - scale, investment-grade credit rating, high-quality Montney resource - have enabled ARC to execute agreements that extend its marketing strategy globally through long-term liquefied natural gas ("LNG") supply agreements. Underpinning this strategy, is low-emission, low-cost Montney growth in BC and Alberta - which includes the Sunrise expansion in the near-term, and the development that is underway at its landmark Attachie asset. Attachie Phase I, the first phase of several at Attachie, is on track to be on-stream in 2025.

- Total anticipated capital investment to bring Phase I on-stream remains unchanged at $740 million.
- Full productive capacity of approximately 40,000 boe per day (40 per cent natural gas and 60 per cent crude oil and liquids) is anticipated to be on-stream in the first half of 2025.
- Long-term takeaway capacity for all products has been secured for multiple phases.

ARC provided a five-year financial outlook through 2028 as part of its Investor Update in June 2023, which incorporates a second phase of Attachie development. A replay of the Investor Update along with the investor presentation can be found on ARC's website at www.arcresources.com/investors.

FINANCIAL AND OPERATIONAL RESULTS

Production

- ARC's production averaged 343,630 boe per day during the second quarter of 2023 (63 per cent natural gas and 37 per cent crude oil and liquids).
- Second quarter production was impacted by approximately 4,100 boe per day related to the wildfires in Alberta and associated downtime on third-party pipelines and infrastructure. Owned and operated infrastructure and dual-connected facilities were critical in minimizing the operating and financial impact. Production was fully restored in the second quarter, with June production averaging approximately 355,000 boe per day.
- Production in the second half of the year is forecast to average approximately 360,000 boe per day. The increase in production compared to the first half of the year will be driven primarily from Kakwa, Greater Dawson, and Sunrise returning to full production levels.
- At Kakwa, ARC has improved efficiencies and extended its inventory duration:
    - ARC has observed an 18 per cent improvement in well productivity due to improved well design progressions and wider inter-well spacing.
    - With approximately 55 per cent of Kakwa undeveloped, ARC is able to sustain production at approximately 180,000 boe per day for the next 15 years.

Funds from Operations, Cash Flow from Operating Activities, and Free Funds Flow

Funds from Operations and Cash Flow from Operating Activities

- Second quarter 2023 funds from operations was $561 million ($0.92 per share), representing a decrease of $157 million from the first quarter of 2023. This decrease was driven by lower commodity prices. Partially offsetting lower commodity prices were slightly higher production volumes and lower realized losses on risk management contracts. Second quarter risk management losses of $9 million decreased $141 million from the first quarter of 2023.

- Second quarter 2023 cash flow from operating activities was $551 million, increasing by $11 million ($0.03 per share) from the first quarter of 2023.

The following table details the change in funds from operations for the second quarter of 2023 relative to the first quarter of 2023.

Funds from Operations Reconciliation	$ millions	$/share[1]
Funds from operations for the three months ended March 31, 2023	717.4	1.16

Funds from operations for the three months ended June 30, 2023	**560.8**	**0.92**

(1) Per share amounts are based on weighted average diluted common shares.

Free Funds Flow

- ARC generated free funds flow of $144 million ($0.24 per share) during the second quarter of 2023.
- ARC intends to return essentially all free funds flow to shareholders in 2023 through a combination of dividends and share repurchases.

Shareholder Returns

Dividends and Share Repurchases

- During the second quarter, ARC distributed 110 per cent or $159 million ($0.26 per share) of free funds flow to shareholders through a combination of dividends and share repurchases under its NCIB.

    - On May 4, 2023, the Board approved a 13 per cent increase to the quarterly dividend, from $0.15 per share to $0.17 per share. The dividend increase was effective with the second quarter dividend payable on July 17, 2023 to shareholders of record on June 30, 2023.
    - During the second quarter 2023, ARC declared dividends of $104 million ($0.17 per share).
    - ARC repurchased $3.1 million common shares under its NCIB at a weighted average price of $16.88 per share.
- In the first six months of 2023, ARC returned 107 per cent of free funds flow to shareholders (90 per cent net of proceeds from divestitures).
- ARC has repurchased 47 million common shares since renewing its NCIB on September 1, 2022, representing 72 per cent of its current NCIB allotment.
- Since commencing its initial NCIB in September 2021, ARC has repurchased approximately 16 per cent of total outstanding shares, or 119 million common shares, at a weighted average price of $15.59 per share.
- ARC intends to renew its NCIB on September 1, 2023 for an additional 10 per cent of the public float, subject to review and approval by the TSX.

Operating and Transportation Expense

Operating Expense

- ARC's second quarter 2023 operating expense of $4.81 per boe was in-line with the 2023 guidance range of $4.45 to $4.85 per boe.
- Operating expense per boe increased seven per cent or by $0.31 per boe quarter-over-quarter reflecting the completion of planned turnaround activity.

Transportation Expense

- ARC's second quarter 2023 transportation expense per boe of $5.34 decreased by $0.27 per boe from the first quarter of 2023 and was slightly below ARC's guidance range of $5.50 to $6.00 per boe. The decrease is primarily due to lower fuel gas expense related to lower commodity prices.

Cash Flow Used in Investing Activities and Capital Expenditures

- Capital expenditures in the second quarter registered at $417 million. ARC drilled 32 wells and completed 49 wells during the second quarter, focused mainly at Kakwa and Sunrise. Other investment focused on completing the Sunrise facility expansion, turnaround activity at Kakwa, and the electrification of the Dawson III and IV facilities.
- Cash flow used in investing activities was $464 million during the second quarter of 2023. During the six months ended June 30, 2023, cash flow used in investing activities was $862 million. Of this, ARC invested $902 million in capital expenditures to drill 78 wells and complete 83 wells.

The following table details ARC's capital activity by area during the first six months of 2023.

Area	Six Months Ended June 30, 2023 Wells Drilled[1][2]	Wells Completed[1]
Kakwa	**44**	**59**
Greater Dawson	**14**	**9**
Sunrise	**16**	**7**
Ante Creek	**4**	**8**
Total	**78**	**83**

(1) Wells drilled and completed for operated assets only.
(2) Excludes disposal wells.

Physical Marketing & Risk Management

- In the second quarter, ARC realized an average natural gas price of $2.83 per Mcf, 20 per cent higher than the average AECO 7A Monthly Index price for the period.
- ARC has approximately 25 per cent of its natural gas hedged in 2023, primarily through costless collars and weighted to the summer months.
- The Company continues to evaluate opportunities to supply natural gas to international markets through long-term LNG supply agreements. ARC has takeaway capacity in place to execute on such agreements, with plans to market approximately 25 per cent of its future natural gas production to international markets.

Net Debt

- As of June 30, 2023, ARC's long-term debt balance was $1.1 billion, and its net debt balance was $1.3 billion, or 0.4 times funds from operations.
- ARC targets its net debt to be approximately 1.0 times funds from operations and manages its capital structure to achieve that target over the long term.
    - Long-term debt is comprised of $1.0 billion of senior notes outstanding and $0.1 billion in borrowings under the Company's credit facility.
- ARC holds an investment-grade credit rating, which allows the Company to have access to capital and manage a low-cost capital structure. ARC is committed to protecting its strong financial position by maintaining significant financial flexibility with its balance sheet.

Net Income

- ARC recognized net income of $279 million ($0.46 per share) during the second quarter of 2023, a decrease of $296 million ($0.47 per share) from the first quarter of 2023.

ESG Initiatives

In the second quarter, ARC completed the electrification of its Dawson III and IV facilities. As a result, all of the Company’s major natural gas plants in northeast BC are now powered by renewable hydroelectricity which avoids GHG emissions of approximately 420,000 tCO_2e per year. This project was supported in part through funding provided by the Province of BC.

ARC plans to publish its 2022 ESG performance data and highlights in the third quarter of 2023.

CONFERENCE CALL

ARC's senior leadership team will be hosting a conference call to discuss the Company's second quarter 2023 results on Thursday, August 3, 2023, at 8:00 a.m. Mountain Time ("MT").

Date	Thursday, August 3, 2023
Time	8:00 a.m. MT
Dial-in Numbers	
Calgary	587-880-2171
Toronto	416-764-8659
Toll-free	1-888-664-6392
Conference ID	35443491
Webcast URL	https://app.webinar.net/oV8628QedgR

Callers are encouraged to dial in 15 minutes before the start time to register for the event. A replay will be available on ARC's website at www.arcresources.com following the conference call.

NON-GAAP AND OTHER FINANCIAL MEASURES

Throughout this news release and in other materials disclosed by the Company, ARC employs certain measures to analyze its financial performance, financial position, and cash flow. These non-GAAP and other financial measures are not standardized financial measures under IFRS and may not be comparable to similar financial measures disclosed by other issuers. The non-GAAP and other financial measures should not be considered to be more meaningful than generally accepted accounting principles ("GAAP") measures which are determined in accordance with IFRS, such as net income, cash flow from operating activities, and cash flow used in investing activities, as indicators of ARC's performance.

Non-GAAP Financial Measures

Capital Expenditures

ARC uses capital expenditures to monitor its capital investments relative to those budgeted by the Company on an annual basis. ARC's capital budget excludes acquisition or disposition activities as well as the accounting impact of any accrual changes and payments under certain lease arrangements. The most directly comparable GAAP measure to capital expenditures is cash flow used in investing activities. The following table details the composition of capital expenditures and its reconciliation to cash flow used in investing activities.

	Three Months Ended			Six Months Ended	
Capital Expenditures ($ millions)	March 31, 2023	**June 30, 2023**	June 30, 2022	**June 30, 2023**	June 30, 2022

Capital expenditures	487.4	**416.5**	352.4	**903.9**	685.7

(1) Comprises non-cash capitalized costs related to the Company's right-of-use asset depreciation and share-based compensation.

Free Funds Flow

ARC uses free funds flow as an indicator of the efficiency and liquidity of ARC's business, measuring its funds after capital investment available to manage debt levels, pay dividends, and return capital to shareholders through share repurchases. ARC computes free funds flow as funds from operations generated during the period less capital expenditures. Capital expenditures is a non-GAAP financial measure. By removing the impact of current period capital expenditures from funds from operations, Management monitors its free funds flow to inform its capital allocation decisions. The most directly comparable GAAP measure to free funds flow is cash flow from operating activities. The following table details the calculation of free funds flow and its reconciliation to cash flow from operating activities.

	Three Months Ended			Six Months Ended	
Free Funds Flow ($ millions)	March 31, 2023	**June 30, 2023**	June 30, 2022	**June 30, 2023**	June 30, 2022
Cash flow from operating activities	540.3	**550.9**	1,092.6	**1,091.2**	1,851.4
Net change in other liabilities	13.7	**(13.9)**	31.2	**(0.2)**	72.0
Change in non-cash operating working capital	163.4	**23.8**	(94.1)	**187.2**	(150.1)
Funds from operations	717.4	**560.8**	1,029.7	**1,278.2**	1,773.3
Capital expenditures(1)	(487.4)	**(416.5)**	(352.4)	**(903.9)**	(685.7)
Free funds flow	230.0	**144.3**	677.3	**374.3**	1,087.6

(1) Certain additional disclosures for these specified financial measures have been incorporated by reference. See *"Cash Flow used in Investing Activities, Capital Expenditures, Acquisitions, and Dispositions"* in the Q2 2023 MD&A.

FORWARD-LOOKING INFORMATION AND STATEMENTS

This news release contains certain forward-looking statements and forward-looking information (collectively referred to as "forward-looking information") within the meaning of applicable securities legislation about current expectations regarding the future based on certain assumptions made by ARC. Although ARC believes that the expectations represented by such forward-looking information are reasonable, there can be no assurance that such expectations will prove to be correct. Forward-looking information in this news release is identified by words such as "anticipate", "believe", "ongoing", "may", "expect", "estimate", "plan", "will", "project", "continue", "target", "strategy", "upholding", or similar expressions, and includes suggestions of future outcomes. In particular, but without limiting the foregoing, this news release contains forward-looking information with respect to: ARC's 2023 guidance, including planned capital expenditures (and the commodity prices at which such capital expenditures are fully funded by funds from operations), production guidance, production estimates and expenses; the anticipated timing of development of Attachie Phase I and the anticipated benefits therefrom; the ability of the Attachie asset to drive production and reserve growth; the anticipated recovery of capital and annual production form the Attachie asset; ARC's plans regarding electrification and the anticipated benefits therefrom; the anticipated timing of publishing ARC's 2022 ESG performance data and highlights; plans to allocate surplus funds from operations to returns to shareholders; the anticipated return of free funds flow to shareholders through dividends and share repurchases; the intention to renew the NCIB and anticipated timing thereof; the continued assessment of dividends and payment thereof; 2023 guidance estimates and 2023 outlook; and other statements. Further, statements relating to reserves are deemed to be forward-looking information, as they involve the implied assessment, based on certain estimates and assumptions, that the resources and reserves described can be profitably produced in the future. In addition, forward-looking information may include statements attributable to third-party industry sources. There can be no assurance that the plans, intentions, or expectations upon which these forward-looking statements are based will occur.

Readers are cautioned not to place undue reliance on forward-looking information as ARC's actual results may differ materially from those expressed or implied. ARC undertakes no obligation to update or revise any forward-looking information except as required by law. Developing forward-looking information involves reliance on a number of assumptions and consideration of certain risks and uncertainties, some of which are specific to ARC and others that apply to the industry generally. The material assumptions on which the forward-looking information in this news release are based, and the material risks and uncertainties underlying such forward-looking information, include: ARC's ability to successfully integrate and realize the anticipated benefits of completed or future acquisitions and divestitures; access to sufficient capital to pursue any development plans; ARC's ability to issue securities and to repurchase its securities under the NCIB; ARC's ability to meet and maintain certain targets, including with respect to emissions-related reductions and ESG performance; expectations and projections made in light of ARC's historical experience; data contained in key modeling statistics; the potential implementation of new technologies and the cost thereof; forecast commodity prices and other pricing assumptions with respect to ARC's 2023 capital expenditure budget; continuing uncertainty of the impact of the June 29, 2021 BC Supreme Court ruling in Blueberry River First Nations (Yahey) v. Province of British Columbia on BC and/ or federal laws or policies affecting resource development in northeast BC and potential outcomes of the negotiations between Blueberry River First Nations and the Government of BC; assumptions with respect to global economic conditions and the accuracy of ARC's market outlook expectations for 2023, 2024 and in the future; suspension of or changes to guidance, and the associated impact to production; the assumption that the regulatory environment will be able to support ARC's investment in the execution of Attachie Phase I, including that regulatory authorities in BC will resume granting approvals for oil and gas activities relating to drilling, completions, testing, processing facilities, and production and transportation infrastructure in 2023 on time frames, and terms and conditions, consistent with past practice; forecast production volumes based on business and market conditions; the accuracy of outlooks and projections contained herein; that future business, regulatory, and industry conditions will be within the parameters expected by ARC, including with respect to prices, margins, demand, supply, product availability, supplier agreements, availability, and cost of labour and interest, exchange, and effective tax rates; projected capital investment levels, the flexibility of capital spending plans, and associated sources of funding; the ability of ARC to complete capital programs and the flexibility of ARC's capital structure; applicable royalty regimes, including expected royalty rates; future improvements in availability of product transportation capacity; opportunity for ARC to pay dividends and the approval and declaration of such dividends by the Board; the existence of alternative uses for ARC's cash resources which may be superior to payment of dividends or effecting repurchases of outstanding common shares; cash flows, cash balances on hand, and access to ARC's credit facility being sufficient to fund capital investments; foreign exchange rates; near-term pricing and continued volatility of the market; the ability of ARC's existing pipeline commitments and financial risk management transactions to partially mitigate a portion of ARC's risks against wider price differentials; business interruption, property and casualty losses, or unexpected technical difficulties; estimates of quantities of crude oil, natural gas, and liquids from properties and other sources not currently classified as proved; accounting estimates and judgments; future use and development of technology and associated expected future results; ARC's ability to obtain necessary regulatory approvals generally; potential regulatory and industry changes stemming from the results of court actions affecting regions in which ARC holds assets; risks and uncertainties related to oil and gas interests and operations on Indigenous lands; the successful and timely implementation of capital projects or stages thereof; the ability to generate sufficient cash flow to meet current and future obligations; estimated abandonment and reclamation costs, including associated levies and regulations applicable thereto; ARC's ability to obtain and retain qualified staff and equipment in a timely and cost-efficient manner; ARC's ability to carry out transactions on the desired terms and within the expected timelines; forecast inflation and other assumptions inherent in the guidance of ARC; the retention of key assets; the continuance of existing tax, royalty, and regulatory regimes; GLJ Ltd.'s estimates with respect to commodity pricing; ARC's ability to access and implement all technology necessary to efficiently and effectively operate its assets; and other assumptions, risks, and uncertainties described from time to time in the filings made by ARC with securities regulatory authorities.

The forward-looking information contained herein are expressly qualified in their entirety by this cautionary statement. The forward-looking information included in this news release are made as of the date of this news release and, except as required by applicable securities laws, ARC undertakes no obligation to publicly update such forward-looking information to reflect new information, subsequent events or otherwise.

The forward-looking information in this news release also includes financial outlooks and other related forward-looking information (including production and financial-related metrics) relating to ARC, including, but not limited to: the expectations of ARC regarding free funds flow, funds from operations, net debt, and production. Any financial outlook and forward-looking information implied by such forward-looking statements are described in ARC's MD&A, and ARC's most recent annual information form, which are available on ARC's website at www.arcresources.com and under ARC's SEDAR+ profile at www.sedarplus.ca and are incorporated by reference herein.

About ARC

ARC Resources Ltd. is a pure-play Montney producer and one of Canada's largest dividend-paying energy companies, featuring low-cost operations and leading ESG performance. ARC's investment-grade credit profile is supported by commodity and geographic diversity and robust risk management practices around all aspects of the business. ARC's common shares trade on the Toronto Stock Exchange under the symbol ARX.

Management's
Discussion & Analysis

MANAGEMENT'S DISCUSSION AND ANALYSIS

This Management's Discussion and Analysis ("MD&A") of ARC Resources Ltd. ("ARC" or the "Company") is Management's analysis of the financial performance and significant trends and external factors that may affect future performance. It is dated August 2, 2023 and should be read in conjunction with the unaudited condensed interim consolidated financial statements (the "financial statements") as at and for the three and six months ended June 30, 2023, and the MD&A and audited consolidated financial statements for the year ended December 31, 2022, as well as ARC's Annual Information Form ("AIF"), each of which is available on ARC's website at www.arcresources.com and on SEDAR+ at www.sedarplus.ca. All financial information is reported in Canadian dollars and all per share information is based on diluted weighted average common shares, unless otherwise noted.

Throughout this MD&A, crude oil ("crude oil") refers to light crude oil, medium crude oil, and heavy crude oil as defined by National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities* ("NI 51-101"). Condensate is a natural gas liquid as defined by NI 51-101. Throughout this MD&A, natural gas liquids ("NGLs") comprise all NGLs as defined by NI 51-101 other than condensate, which is disclosed separately. Crude oil and liquids ("crude oil and liquids") refers to crude oil, condensate, and NGLs.

Throughout this MD&A and in other materials disclosed by the Company, ARC presents financial measures that adhere to Canadian generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board (the "IASB"), however the Company also employs certain non-GAAP financial measures to analyze financial performance, financial position, and cash flow including, "netback", "capital expenditures", "free funds flow", "adjusted earnings before interest and taxes" ("adjusted EBIT"), and "average capital employed". Additionally, other financial measures are also used to analyze performance including, but not limited to, "funds from operations" and "net debt". These non-GAAP and other financial measures do not have any standardized meaning prescribed under IFRS and therefore may not be comparable to similar measures presented by other entities. The non-GAAP and other financial measures should not be considered to be more meaningful than GAAP measures which are determined in accordance with IFRS, such as net income, cash flow from operating activities, and cash flow used in investing activities, as indicators of ARC's performance.

Readers are cautioned that the MD&A should be read in conjunction with the sections entitled "Non-GAAP and Other Financial Measures", "Forward-looking Information and Statements", and "Glossary" at the end of this MD&A.

ABOUT ARC RESOURCES LTD.

ARC is a dividend-paying, Canadian energy company headquartered in Calgary, Alberta. ARC's activities focus on the exploration, development, and production of unconventional natural gas, condensate, NGLs, and crude oil in western Canada with an emphasis on the development of properties with a large volume of hydrocarbons in-place, commonly referred to as "resource plays".

The guiding principles upon which ARC conducts its business have created a strong foundation for the Company's performance. ARC's standards of operational excellence, robust risk management program, and strong balance sheet have positioned the Company to prudently manage volatile market conditions. The Company's concentrated Montney asset base, located in premier positions within the Montney fairway and including a network of owned-and-operated infrastructure, allows ARC to deliver strong capital and operating efficiencies. The commodity and geographic optionality within the asset base allows ARC to manage risk. ARC exercises capital discipline and maintains a deliberate pace of development to manage its corporate decline rate. ARC's sustainable business model is focused on a strong balance sheet, ample liquidity, environmental, social, and governance leadership, long-term corporate profitability, generating free funds flow, and paying a sustainable dividend to shareholders. In combination with the Company's premier land position in the Montney, significant resources in-place with a large inventory of future drilling locations, and high-performance people and culture, these principles make ARC a differentiated company.

Highlights

Corporate highlights for the annual periods of 2019 through 2022 and the six months ended June 30, 2023 are shown in Table 1:

Table 1

($ millions, except per share amounts, or unless otherwise noted)	**2023 YTD**	2022	2021	2020	2019

(1) Reported production amount is based on Company's interest before royalty burdens.
(2) Represents average daily production divided by the diluted weighted average common shares outstanding for the six months ended June 30, 2023, and for the respective years ended December 31, 2022, 2021, 2020, and 2019.
(3) Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A for an explanation of composition.
(4) Refer to Note 10 "Capital Management" in the financial statements and to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A.
(5) Non-GAAP financial measure that does not have any standardized meaning under IFRS and therefore may not be comparable to similar measures presented by other entities. The most directly comparable GAAP measure for free funds flow is cash flow from operating activities. Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A.
(6) Non-GAAP ratio that does not have any standardized meaning under IFRS and therefore may not be comparable to similar ratios presented by other entities. Includes a non-GAAP financial measure component of free funds flow. Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A for an explanation of composition.
(7) Non-GAAP financial measure that does not have any standardized meaning under IFRS and therefore may not be comparable to similar measures presented by other entities. The most directly comparable GAAP measure for capital expenditures is cash flow used in investing activities. Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A.
(8) Refer to Note 7 "Long-term Debt" in the financial statements. Long-term debt includes current and long-term portions.
(9) Non-GAAP ratio that does not have any standardized meaning under IFRS and therefore may not be comparable to similar ratios presented by other entities. Includes non-GAAP financial measure components of adjusted EBIT and average capital employed. Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A for an explanation of composition.
(10) Crude oil, condensate, natural gas, and NGLs reserves ("reserves") as determined by ARC's independent qualified reserve evaluator with an effective date of December 31 for the years shown in accordance with the Canadian Oil and Gas Evaluation Handbook.
(11) Reserves are the gross interest reserves before deduction of royalties and without including any royalty interests. For more information, see ARC's AIF available on ARC's website at www.arcresources.com and on SEDAR+ at www.sedarplus.ca.

QUARTERLY RESULTS (1)

Trends in net income (loss), cash flow from operating activities, and funds from operations are primarily associated with fluctuations in commodity sales from production which reflect changes in production levels and commodity prices. Net income (loss) is also impacted by changes in the value of risk management contracts and impairment or reversal of impairment of property, plant and equipment ("PP&E").

ANNUAL GUIDANCE

ARC's 2023 guidance and a review of 2023 year-to-date results are outlined below:

Table 2

	2023 Guidance	2023 YTD Actual	% Variance from 2023 Guidance
Production			
Crude oil (bbl/d)	8,500 - 9,000	**7,981**	(6)
Condensate (bbl/d)	76,000 - 78,000	**73,287**	(4)
Crude oil and condensate (bbl/d)	84,500 - 87,000	**81,268**	(4)
Natural gas (MMcf/d)	1,295 - 1,305	**1,277**	(1)
NGLs (bbl/d)	49,000 - 51,000	**46,991**	(4)
Total (boe/d)	350,000 - 355,000	**341,018**	(3)
Expenses ($/boe) (1)			
Operating	4.45 - 4.85	**4.66**	—
Transportation	5.50 - 6.00	**5.47**	(1)
General and administrative ("G&A") expense before share-based compensation expense	0.85 - 0.95	**1.14**	20
G&A - share-based compensation expense	0.25 - 0.35	**0.35**	—
Interest and financing (2)	0.65 - 0.75	**0.66**	—
Current income tax expense, as a per cent of funds from operations (1)	10 - 15	**8**	(20)
Capital expenditures ($ billions) (3)	1.8 - 1.9	**0.9**	n/a

(1) Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A for an explanation of composition.
(2) Excludes accretion of ARC's asset retirement obligation ("ARO").
(3) Refer to the section entitled "About ARC Resources Ltd." contained within this MD&A for historical capital expenditures.

Production, transportation, and current income tax expense as a per cent of funds from operations are all currently below their respective guidance ranges, while G&A expense before share-based compensation expense is currently above the guidance range. All items are expected to trend towards the guidance ranges through the remainder of the year, with the exception of current income tax expense as a per cent of funds from operations, which is anticipated to remain below the guidance range.

(1) Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A for an explanation of composition.

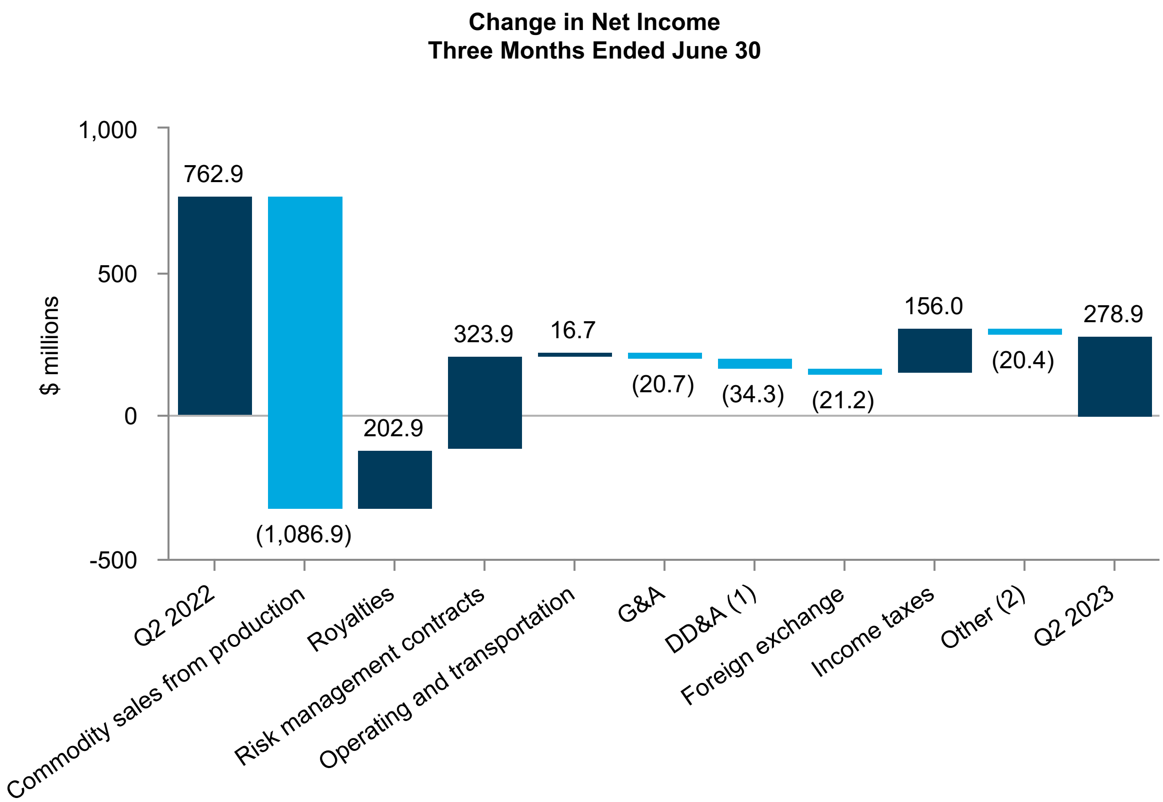
Net Income

In the second quarter of 2023, ARC recognized net income of $278.9 million ($0.46 per share), a decrease of $484.0 million from ARC's second quarter 2022 net income of $762.9 million ($1.13 per share). The decrease in net income is primarily attributed to a decrease in commodity sales from production of $1.1 billion, driven by lower average realized commodity prices. This was partially offset by a decrease in royalties of $202.9 million, a decrease in income taxes of $156.0 million, and a gain on risk management contracts of $119.2 million, compared to a loss of $204.7 million in the same period of the prior year.

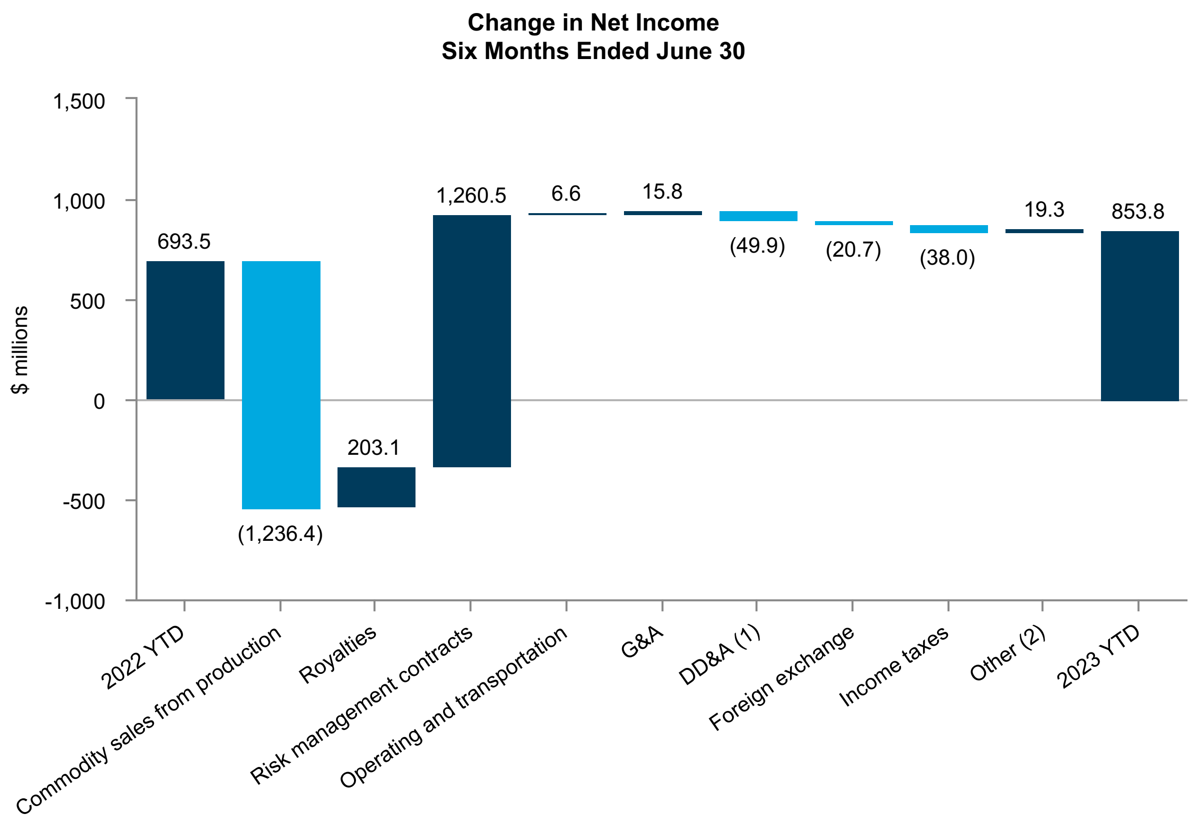
Exhibit 3



(1) Includes depletion, depreciation and amortization ("DD&A") and impairment of PP&E.
(2) Includes sales of commodities purchased from third parties, interest and other income, commodities purchased from third parties, interest and financing, and reversal of impairment of financial assets.

For the six months ended June 30, 2023, ARC recognized net income of $853.8 million ($1.39 per share) compared to $693.5 million ($1.01 per share) for the same period of the prior year. The $160.3 million increase in net income is primarily attributed to a gain on risk management contracts of $228.3 million, compared to a loss of $1.0 billion in the same period of the prior year, and decreased royalties of $203.1 million. Partially offsetting this is a decrease in commodity sales from production of $1.2 billion, associated with lower average realized commodity prices.

Exhibit 3a



(1) Includes DD&A and impairment of PP&E.
(2) Includes sales of commodities purchased from third parties, interest and other income, commodities purchased from third parties, interest and financing, and reversal of impairment of financial assets.

Cash Flow from Operating Activities and Funds from Operations

Cash flow from operating activities for the three months ended June 30, 2023, was $550.9 million, a decrease of $541.7 million from ARC's second quarter 2022 cash flow from operating activities of $1.1 billion. For the six months ended June 30, 2023, cash flow from operating activities decreased to $1.1 billion from $1.9 billion for the same period in 2022. The decrease in cash flow from operating activities for the three and six months ended June 30, 2023, compared to the three and six months ended June 30, 2022, is primarily due to lower average realized commodity prices during the first half of 2023.

ARC considers funds from operations to be a key measure of financial performance as it demonstrates ARC's ability to generate the necessary funds to maintain production at current levels and fund future growth through capital investment. Management believes that such a measure provides an insightful assessment of financial performance on a continuing basis by eliminating certain non-cash charges and actual settlements of ARO, of which the nature and timing of expenditures are discretionary. Funds from operations is a capital management measure, which is not a standardized measure and therefore may not be comparable with the calculation of similar measures by other entities.

Refer to Note 10 "Capital Management" in the financial statements and to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A. Table 4 is a reconciliation of ARC's net income to funds from operations and its most directly comparable GAAP measure, cash flow from operating activities:

Table 4

	Three Months Ended			Six Months Ended	
($ millions)	March 31, 2023	**June 30, 2023**	June 30, 2022	**June 30, 2023**	June 30, 2022
Net income	574.9	**278.9**	762.9	**853.8**	693.5
Adjusted for the following non-cash items:					
Impairment (reversal of impairment) of financial assets	(7.9)	**(0.8)**	2.8	**(8.7)**	2.5
DD&A	339.0	**348.3**	314.0	**687.3**	637.4
Accretion of ARO	3.2	**3.1**	2.6	**6.3**	5.0

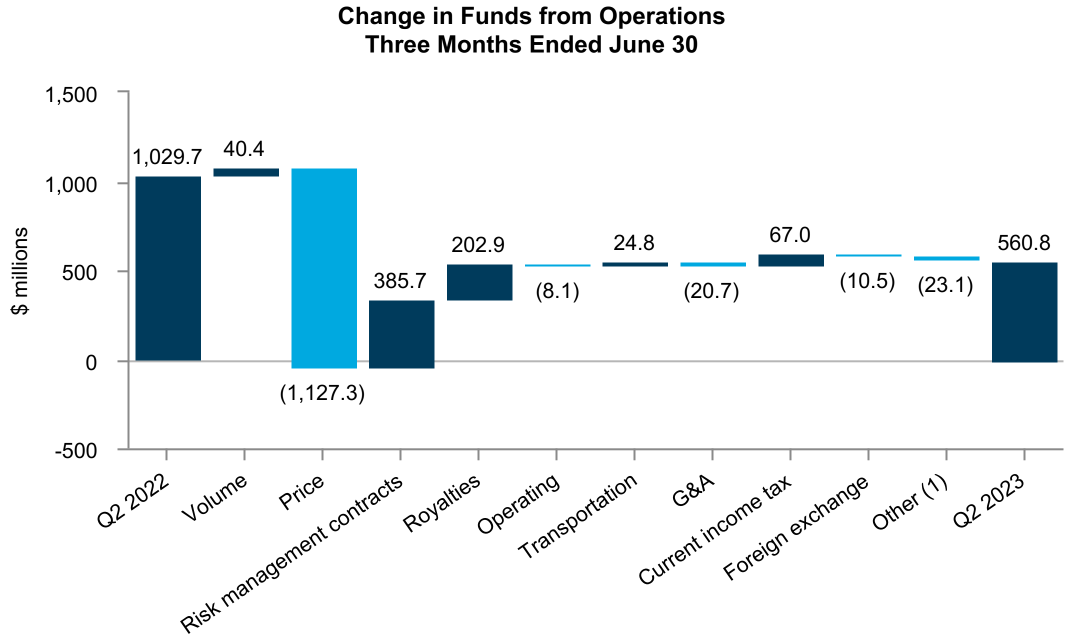
Interest and financing	**(0.6)**	**—**	**1.6**	**—**
Current income tax	**67.0**	**0.10**	**45.0**	**0.07**
Realized loss on foreign exchange	**(10.5)**	**(0.02)**	**(7.1)**	**(0.01)**
Other	**0.4**	**—**	**3.3**	**—**
Weighted average shares, diluted	**—**	**0.08**	**—**	**0.21**
Funds from operations – 2023	**560.8**	**0.92**	**1,278.2**	**2.08**

Funds from operations for the three months ended June 30, 2023, was $560.8 million ($0.92 per share), a decrease of $468.9 million from $1.0 billion ($1.52 per share) for the three months ended June 30, 2022. For the six months ended June 30, 2023, funds from operations was $1.3 billion ($2.08 per share), a decrease of $495.1 million from $1.8 billion ($2.59 per share) for the six months ended June 30, 2022.

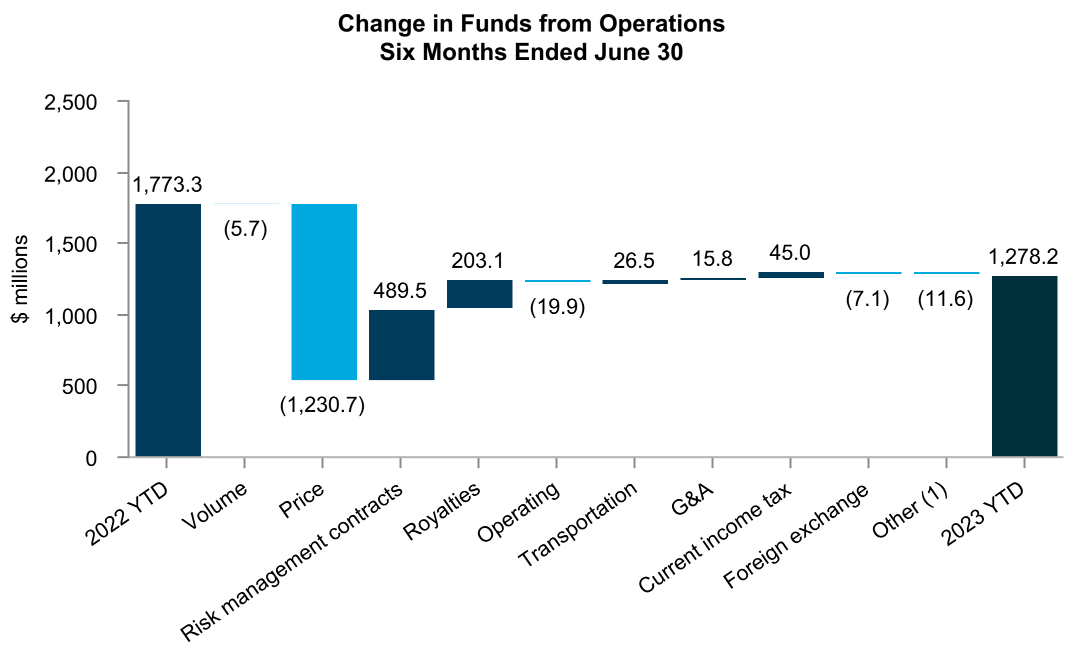
The decrease in funds from operations for the three and six months June 30, 2023, is primarily due to lower commodity sales from production, resulting from lower average realized commodity prices. This was partially offset by a decrease in the realized loss on risk management contracts and a decrease in royalties, both attributed to lower commodity prices.

Exhibit 4



(1) Includes sales of commodities purchased from third parties, interest and other income, commodities purchased from third parties, and interest and financing.

Exhibit 4a



(1) Includes sales of commodities purchased from third parties, interest and other income, commodities purchased from third parties, and interest and financing.

Net Income Sensitivity

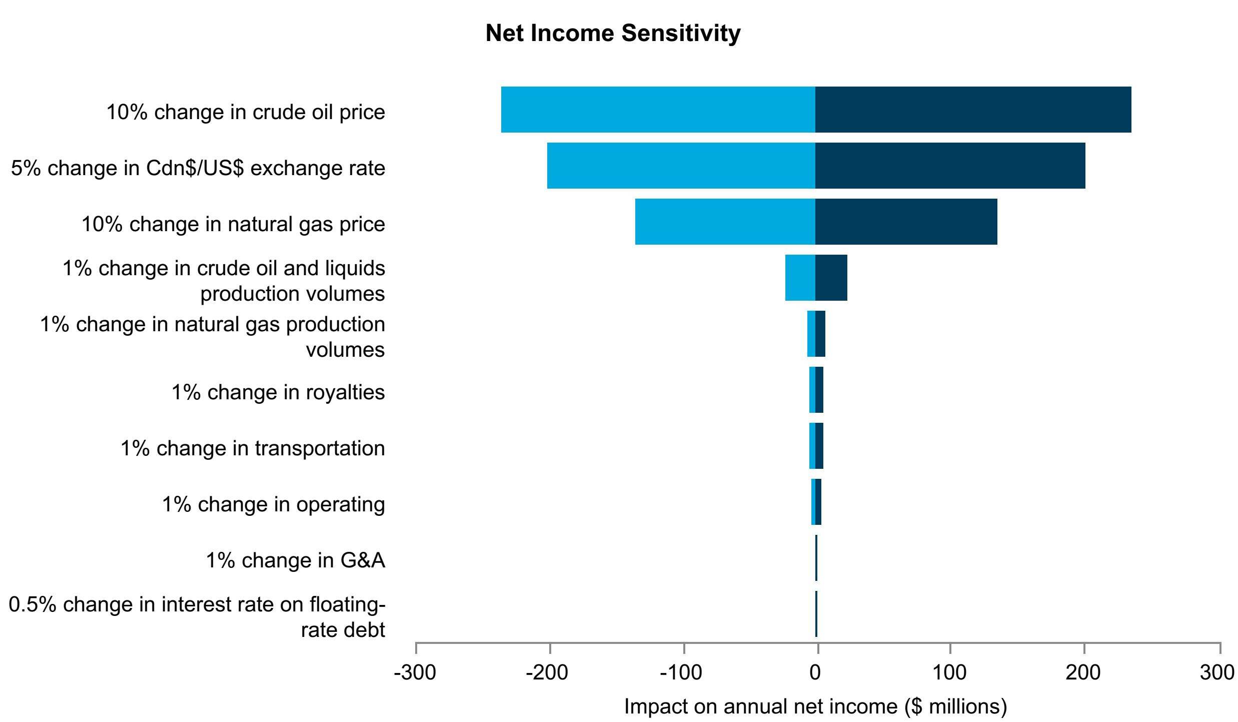
Table 6 illustrates sensitivities of operating items to business environment and operational changes and the resulting impact on net income:

Table 6

			Impact on Annual Net Income	
	Assumption	Change	Notional Amount ($ millions)	$/Share
Business Environment (1)				
Crude oil price ($/bbl) (2)(3)	90.42	10 %	235.2	0.382
Natural gas price ($/Mcf) (2)	4.34	10 %	135.1	0.220
Cdn$/US$ exchange rate (2)(4)	1.35	5 %	200.7	0.326
Interest rate on floating-rate debt	6.33 %	0.5 %	0.5	0.001
Operational (5)				
Crude oil and liquids production (bbl/d)	128,259	1 %	23.7	0.038
Natural gas production (MMcf/d)	1,277	1 %	7.3	0.012
Royalties ($/boe)	6.14	1 %	5.7	0.009
Operating ($/boe)	4.66	1 %	4.4	0.007
Transportation ($/boe)	5.47	1 %	5.1	0.008
G&A ($/boe)	1.49	1 %	1.4	0.002

(1) Calculations are performed independently and may not be indicative of actual results that would occur when multiple variables change at the same time. The subsequent impact on risk management contracts is not included.
(2) Prices and rates are indicative of ARC's average realized prices for the six months ended June 30, 2023. Refer to Table 10 contained within this MD&A for additional details. The calculated impact on net income is indicative of changes in the underlying benchmark prices and differentials and would only be applicable within a limited range of these amounts.
(3) Includes the impact on crude oil, condensate, and NGLs prices.
(4) Includes impact of foreign exchange on crude oil, condensate, natural gas, and NGLs prices that are realized in US dollars.
(5) Operational assumptions are based upon results for the six months ended June 30, 2023 and the calculated impact on net income would only be applicable within a limited range of these amounts.

Exhibit 5



Production

Table 7

Production		Three Months Ended			Six Months Ended		
	March 31, 2023	**June 30, 2023**	June 30, 2022	% Change	**June 30, 2023**	June 30, 2022	% Change
Crude oil (bbl/d)	7,884	**8,076**	8,297	(3)	**7,981**	8,096	(1)
Condensate (bbl/d)	71,085	**75,464**	75,793	—	**73,287**	74,382	(1)
NGLs (bbl/d)	48,800	**45,202**	48,877	(8)	**46,991**	49,563	(5)
Crude oil and liquids (bbl/d)	127,769	**128,742**	132,967	(3)	**128,259**	132,041	(3)
Natural gas (MMcf/d)	1,264	**1,289**	1,219	6	**1,277**	1,249	2
Total production (boe/d)	338,377	**343,630**	336,112	2	**341,018**	340,256	—
Natural gas production (%)	62	**63**	60	3	**62**	61	1
Crude oil and liquids production (%)	38	**37**	40	(3)	**38**	39	(1)

For both the three and six months ended June 30, 2023, crude oil and liquids production decreased three per cent, as compared to the same periods in the prior year. The decrease in crude oil and liquids production for the three months ended June 30, 2023 was primarily a result of the wildfires in Alberta, which caused downtime on third-party pipelines and infrastructure in the Kakwa area and production shut-ins in the Ante Creek area. For the six months ended June 30, 2023, the decrease in crude oil and liquids production was also impacted by a third-party pipeline outage which caused a portion of production in the Greater Dawson area to be shut-in. This was partially offset by increased production from new wells coming on-stream in the Kakwa area.

For the three and six months ended June 30, 2023, natural gas production increased six per cent and two per cent, respectively, as compared to the same periods in the prior year. The increase for the three months ended June 30, 2023 was primarily driven by increased production from new wells coming on-stream in the Kakwa and Sunrise areas, partially offset by declining well production in the Greater Dawson area. The increase for the six months ended June 30, 2023 was also partially offset by a third-party pipeline outage which caused a portion of production in the Greater Dawson area to be shut-in.

Exhibit 6

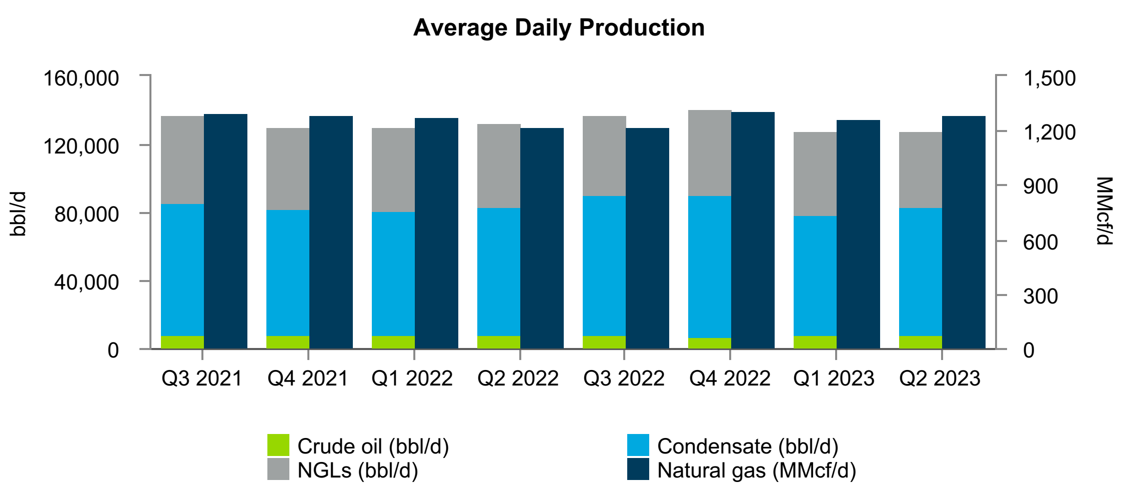


Table 8 summarizes ARC's production by core area for the three months ended June 30, 2023 and June 30, 2022:

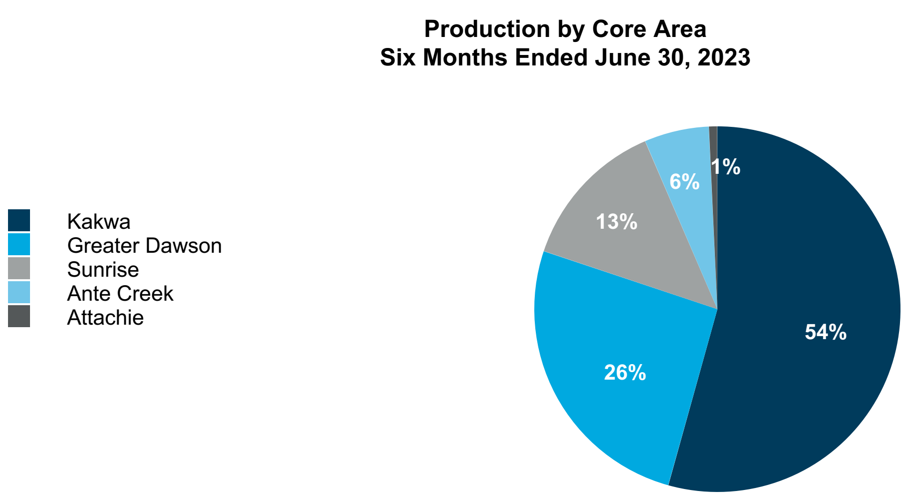
Exhibit 7a



Commodity Sales from Production

For the three and six months ended June 30, 2023, commodity sales from production decreased by 49 per cent and 32 per cent, respectively, as compared to the same periods in 2022. The decrease for both the three and six months ended June 30, 2023 is due to lower average realized commodity prices.

A breakdown of commodity sales from production by product and percentage of commodity sales from production by product type is outlined in Tables 9 and 9a:

Table 9

	Three Months Ended				Six Months Ended		
Commodity Sales from Production, by Product ($ millions)	March 31, 2023	**June 30, 2023**	June 30, 2022	% Change	**June 30, 2023**	June 30, 2022	% Change
Crude oil	65.8	**64.8**	101.6	(36)	**130.6**	180.8	(28)
Condensate	666.0	**641.6**	951.1	(33)	**1,307.6**	1,733.5	(25)

ARC Average Realized Commodity Prices (2)							
Crude oil ($/bbl)	92.78	**88.13**	134.52	(34)	**90.42**	123.35	(27)
Condensate ($/bbl)	104.10	**93.43**	137.91	(32)	**98.58**	128.76	(23)
Natural gas ($/Mcf)	5.89	**2.83**	9.08	(69)	**4.34**	7.50	(42)
NGLs ($/bbl)	28.59	**20.89**	34.16	(39)	**24.87**	31.03	(20)
Average realized commodity price ($/boe)	50.16	**35.97**	72.31	(50)	**42.97**	63.14	(32)

(1) Historically this benchmark price referenced the Blended Condensate Index, but now references the Fort Saskatchewan Pipeline System condensate price.
(2) Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A for an explanation of composition.

Benchmark Commodity Prices

Average WTI crude oil prices decreased three per cent in the second quarter of 2023 compared to the prior quarter and decreased 32 per cent compared to the second quarter of 2022. Coordinated production curtailments by a number of large crude oil-producing countries during the second quarter of 2023 resulted in lower global supply than previously forecasted, but this was partially offset by resilient supply from other countries that are currently subject to international sanctions on crude oil exports. Inflationary pressures and rising interest rates continued to negatively impact global economic sentiment during the period, but crude oil demand has generally been in line with market expectations.

Canadian condensate differentials weakened during the second quarter of 2023, relative to the prior quarter, due to seasonal factors including milder temperatures and annual maintenance at oil sands operations. Oversupply of condensate and similar products in global markets also resulted in increased imported volumes into the Canadian condensate market.

Average NYMEX Henry Hub natural gas prices decreased 39 per cent in the second quarter of 2023 compared to the prior quarter and decreased 71 per cent compared to the second quarter of 2022. US natural gas inventories continued to trend above historical averages with stable US natural gas production and no unexpected impacts to heating or cooling demand during the period. Demand from the power generation sector reached record seasonal levels in the second quarter of 2023, but the increase was generally offset by a reduction in liquefied natural gas ("LNG") exports, as several US liquefaction facilities underwent planned maintenance.

The AECO 7A Monthly Index decreased 46 per cent in the second quarter of 2023 compared to the prior quarter and decreased 63 per cent compared to the second quarter of 2022. Similar to most other North American benchmark prices, AECO prices decreased during the quarter as the market shifted into a period of lower seasonal demand. Wildfires in western Canada forced the curtailment of a significant portion of the region's natural gas production during much of the period. The loss of supply was partially mitigated by a reduction in exports out of the region, as the price of AECO increased relative to that of downstream markets.

ARC's Average Realized Commodity Prices

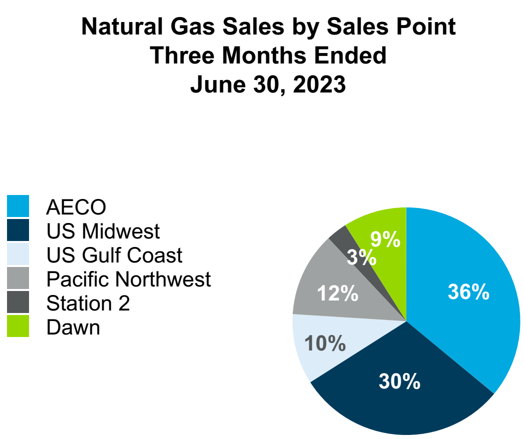
For the three and six months ended June 30, 2023, ARC's average realized crude oil price decreased 34 per cent and 27 per cent, respectively, compared to the same periods in 2022. The decreases reflect a decline in the WTI benchmark price and wider differentials in the current periods.

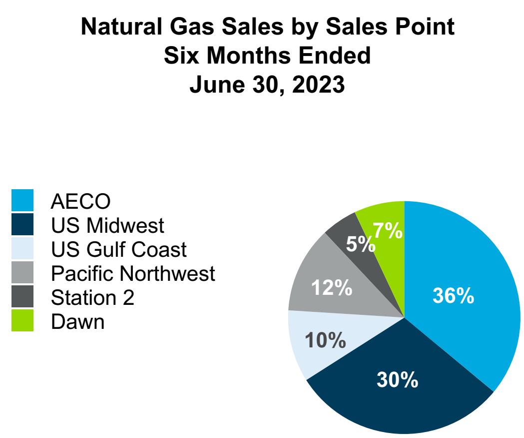
For the three and six months ended June 30, 2023, ARC's average realized condensate price decreased 32 per cent and 23 per cent, respectively, compared to the same periods in 2022. The decrease for the three months ended June 30, 2023 reflects a decline in the WTI benchmark price and weaker differentials in the current period compared to the same period of the prior year. The decrease for the six months ended June 30, 2023 reflects a decline in the WTI benchmark price, partially offset by stronger differentials in the current period compared to the same period of the prior year.

ARC's natural gas sales are physically diversified to multiple sales points within North America, each with different index-based pricing. ARC's average realized natural gas price for the three and six months ended June 30, 2023 decreased 69 per cent and 42 per cent, respectively, compared to the same periods in the prior year. The decreases are primarily due to declines in the NYMEX Henry Hub and AECO 7A Monthly Index benchmark prices, partially offset by relatively stronger pricing at the Pacific Northwest sales point.

During the six months ended June 30, 2023, ARC entered into a non-binding Memorandum of Understanding for a 20-year agreement to supply and liquify approximately 200 MMcf per day of natural gas with the proposed Cedar LNG Project in British Columbia. The parties are working towards finalizing a definitive agreement in support of the project proponents making a final investment decision on the project.

Exhibit 9





ARC's average realized NGLs price for the three and six months ended June 30, 2023 decreased 39 per cent and 20 per cent, respectively, compared to the same periods in 2022. The decreases are primarily due to a decrease in benchmark prices.

Risk Management Contracts

Tables 11 and 11a summarize the gain or loss on risk management contracts for the three and six months ended June 30, 2023 compared to the same periods in 2022:

Table 11

Risk Management Contracts ($ millions)	**Crude Oil & Condensate**	**Natural Gas**	**NGLs and Foreign Currency**	**Q2 2023 Total**	Q2 2022 Total
Realized gain (loss) on risk management contracts (1)	(17.8)	9.8	(1.1)	**(9.1)**	(394.8)
Unrealized gain on risk management contracts (2)	38.2	63.9	26.2	**128.3**	190.1
Gain (loss) on risk management contracts	**20.4**	**73.7**	**25.1**	**119.2**	(204.7)

(1) Represents actual cash settlements under the respective contracts recognized in net income during the period.
(2) Represents the change in fair value of the contracts during the period.

Table 11a

Risk Management Contracts ($ millions)	**Crude Oil & Condensate**	**Natural Gas**	**NGLs and Foreign Currency**	**2023 YTD Total**	2022 YTD Total
Realized loss on risk management contracts (1)	(48.2)	(108.8)	(2.6)	**(159.6)**	(649.1)
Unrealized gain (loss) on risk management contracts (2)	107.7	254.2	26.0	**387.9**	(383.1)
Gain (loss) on risk management contracts	**59.5**	**145.4**	**23.4**	**228.3**	(1,032.2)

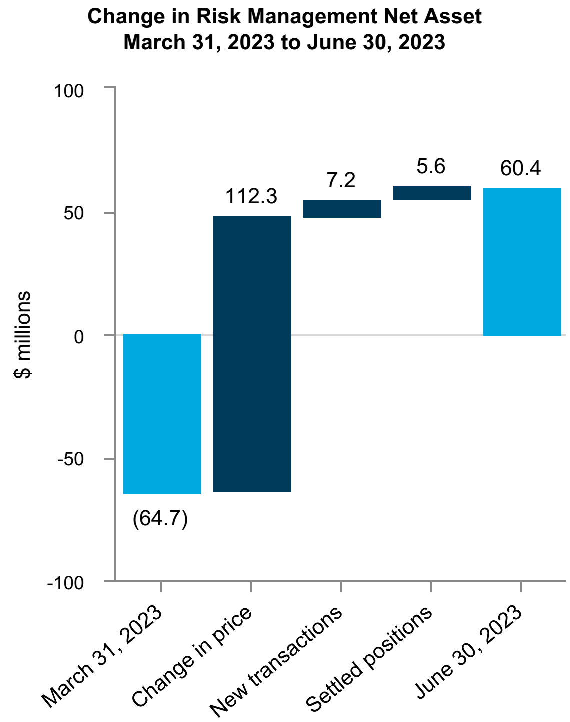
(1) Represents actual cash settlements under the respective contracts recognized in net income during the period.
(2) Represents the change in fair value of the contracts during the period.

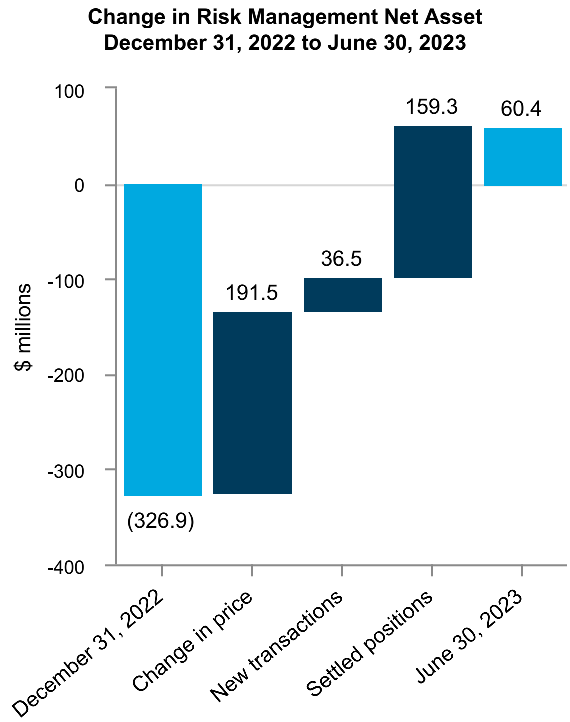
ARC's realized loss on risk management contracts for the three and six months ended June 30, 2023, primarily results from cash settlements paid on WTI crude oil contracts, NYMEX Henry Hub and AECO natural gas contracts, and natural gas basis differential contracts. The decrease in realized loss on risk management contracts for the three and six months ended June 30, 2023, compared to the same periods of the prior year, is primarily the result of lower average commodity prices relative to contract prices and lower hedged volumes as compared to the same periods of the prior year.

ARC's unrealized gain on risk management contracts for the three and six months June 30, 2023, reflects the revaluation of WTI crude oil, NYMEX Henry Hub natural gas, and AECO natural gas contracts following settlements throughout the period as well as contracts outstanding with lower forward pricing as compared to the same periods of the prior year.

The fair value of ARC’s risk management contracts at June 30, 2023 was a net asset of $60.4 million, representing the expected value of settlement of ARC’s contracts at the balance sheet date after adjustments for credit risk. This comprises a net liability of $20.5 million from crude oil contracts, a net asset of $58.0 million from natural gas contracts, and a net asset of $22.9 million from foreign currency contracts. For more information, refer to Note 11 "Financial Instruments and Market Risk Management" in the financial statements.

Exhibit 10





Natural Gas - Embedded Derivative

ARC has a natural gas supply agreement that contains an embedded derivative as a result of a pricing formula that is reliant on Japan Korea Marker ("JKM") index pricing. For the three and six months ended June 30, 2023, ARC recognized an unrealized loss on risk management contracts of $18.7 million and $7.7 million, respectively. The agreement was not in place for the comparative periods of the prior year. At June 30, 2023, the fair value of the natural gas embedded derivative was a liability of $11.7 million ($4.0 million at December 31, 2022). The fair value reflects the estimated differential between JKM and Chicago Citygate forward pricing over the term of the agreement. Due to the long-term nature of the agreement and multiple variables impacting the estimated valuation, it is anticipated that the estimated fair value of the natural gas embedded derivative may fluctuate over time as the agreement matures. For further information, refer to Note 11 "Financial Instruments and Market Risk Management" in the financial statements.

Netback

The components of ARC's netback for the three and six months ended June 30, 2023 compared to the same periods in 2022 are summarized in Tables 12 and 12a:

Table 12

	Three Months Ended				Six Months Ended		
Netback ($ millions) [1]	March 31, 2023	**June 30, 2023**	June 30, 2022	% Change	**June 30, 2023**	June 30, 2022	% Change
Commodity sales from production	1,527.5	**1,124.7**	2,211.8	(49)	**2,652.2**	3,888.6	(32)
Royalties	(242.1)	**(136.7)**	(339.6)	(60)	**(378.8)**	(581.9)	(35)
Operating	(137.1)	**(150.5)**	(142.4)	6	**(287.6)**	(267.7)	7
Transportation	(170.9)	**(166.9)**	(191.7)	(13)	**(337.8)**	(364.3)	(7)
Netback	977.4	**670.6**	1,538.1	(56)	**1,648.0**	2,674.7	(38)

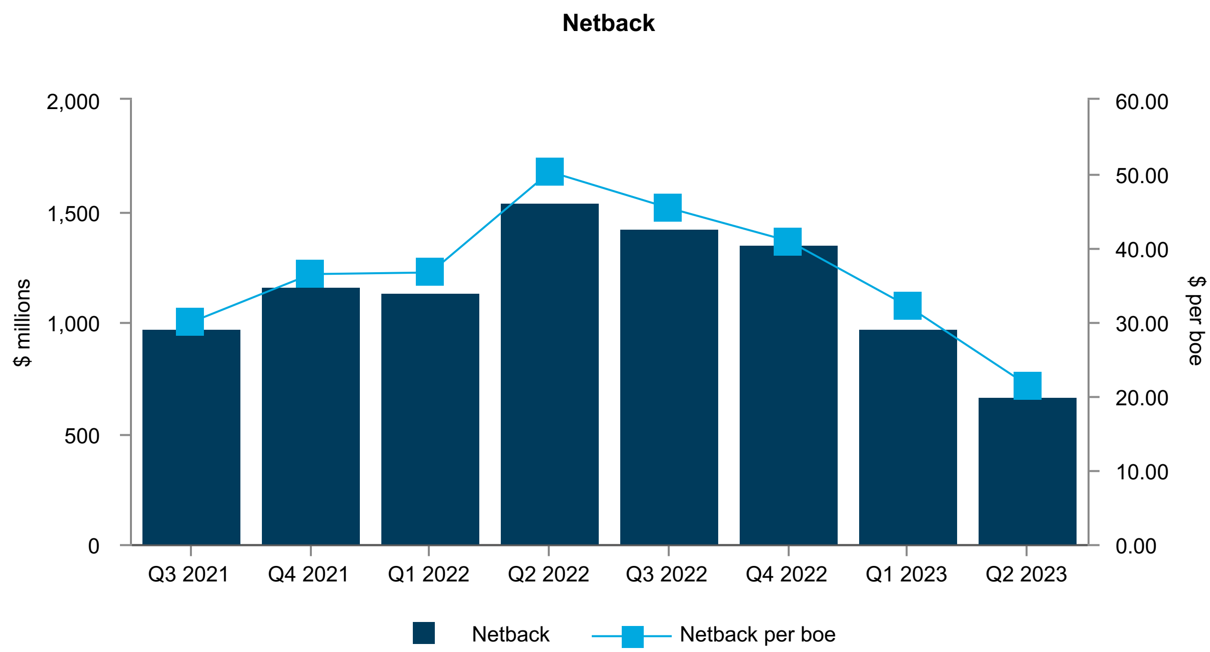
(1) Non-GAAP financial measure that does not have any standardized meaning under IFRS and therefore may not be comparable to similar measures presented by other entities. Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A.

Table 12a

Netback ($ per boe) [1]	March 31, 2023	**June 30, 2023**	June 30, 2022	% Change	**June 30, 2023**	June 30, 2022	% Change
	Three Months Ended				Six Months Ended		
Commodity sales from production	50.16	**35.97**	72.31	(50)	**42.97**	63.14	(32)
Royalties [2]	(7.96)	**(4.38)**	(11.10)	(61)	**(6.14)**	(9.45)	(35)
Operating	(4.50)	**(4.81)**	(4.66)	3	**(4.66)**	(4.35)	7
Transportation	(5.61)	**(5.34)**	(6.27)	(15)	**(5.47)**	(5.91)	(7)
Netback	32.09	**21.44**	50.28	(57)	**26.70**	43.43	(39)

(1) Non-GAAP ratio that does not have any standardized meaning under IFRS and therefore may not be comparable to similar ratios presented by other entities. Includes a non-GAAP financial measure component of netback. Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A.
(2) Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A for an explanation of composition.

Exhibit 11

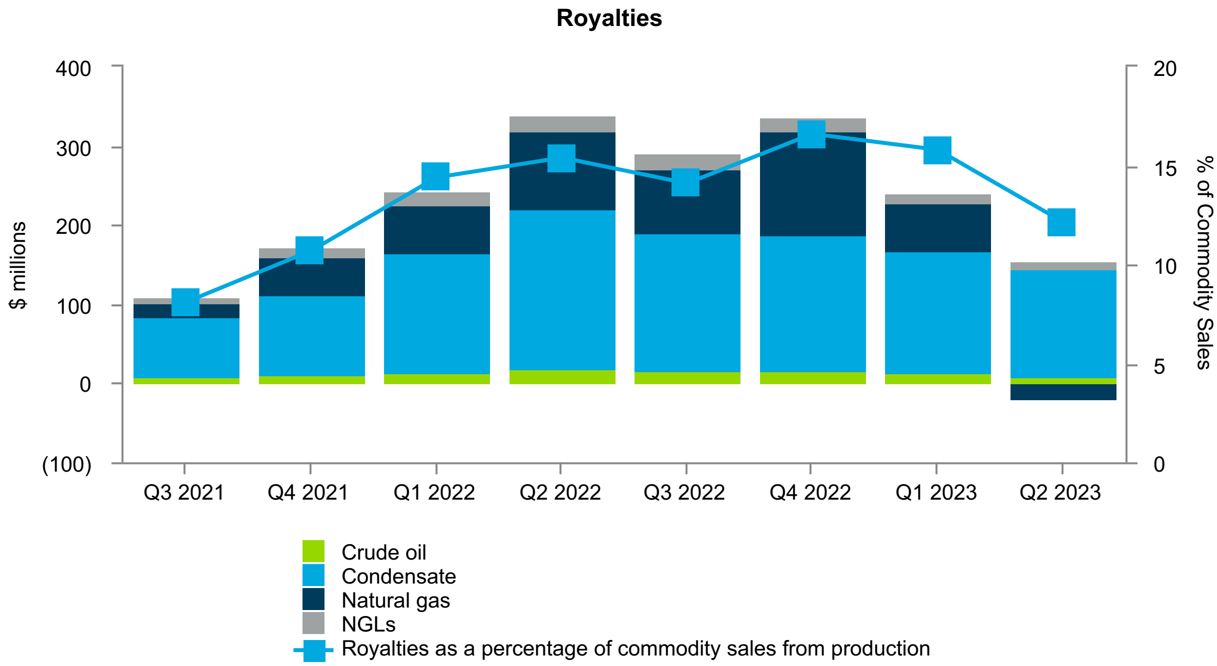


Royalties

Royalties for the three and six months ended June 30, 2023 decreased 60 per cent and 35 per cent, respectively, to $136.7 million and $378.8 million ($339.6 million and $581.9 million for the same periods in 2022). Royalties as a percentage of commodity sales from production[1] decreased to 12 per cent ($4.38 per boe) in the second quarter of 2023 from 15 per cent ($11.10 per boe) in the second quarter of 2022. For the six months ended June 30, 2023, royalties represented 14 per cent ($6.14 per boe) of commodity sales from production as compared to 15 per cent ($9.45 per boe) for the same period in 2022. The decrease in royalties and royalties as a percentage of commodity sales from production for the three and six months ended June 30, 2023, primarily reflects lower average royalty rates due to decreased commodity prices and the impact of certain royalty programs, as compared to the same periods in 2022.

(1) Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A for an explanation of composition.

Exhibit 12



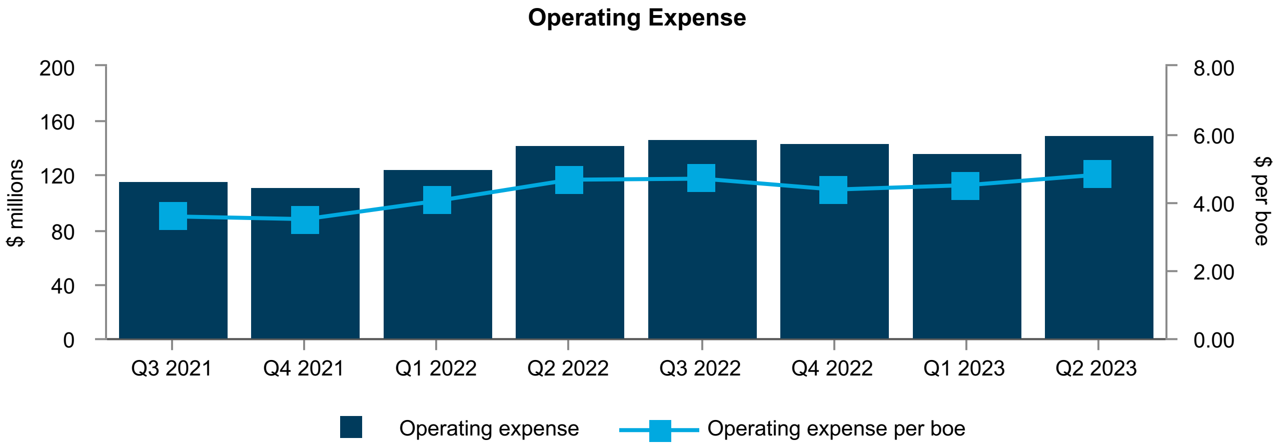
Operating

Operating expense for the three months ended June 30, 2023 was $150.5 million, an increase of six per cent from $142.4 million for the three months ended June 30, 2022. For the six months ended June 30, 2023, operating expense was $287.6 million, an increase of seven per cent from $267.7 million in the same period of the prior year.

Operating expense per boe for the three months ended June 30, 2023 was $4.81 per boe, an increase of three per cent from $4.66 per boe for the three months ended June 30, 2022. For the six months ended June 30, 2023, operating expense per boe was $4.66 per boe, an increase of seven per cent from $4.35 per boe in the same period of the prior year.

The increase in operating expense for the three months ended June 30, 2023, as compared to the same period of the prior year, reflects increased employee compensation costs (including share-based compensation), increased electricity costs, reflecting higher Alberta electricity prices and increased consumption in British Columbia following the electrification of the Dawson Phase III and IV facilities, as well as an increase in scheduled maintenance activity, primarily in the Kakwa and Ante Creek areas. The increase in operating expense for the six months ended June 30, 2023, as compared to the same period of the prior year, reflects an increase in gas processing fees, primarily in the Kakwa area, an increase in scheduled maintenance activity, primarily in the Kakwa and Ante Creek areas, and higher electricity costs resulting from higher Alberta electricity prices.

Exhibit 13



Transportation

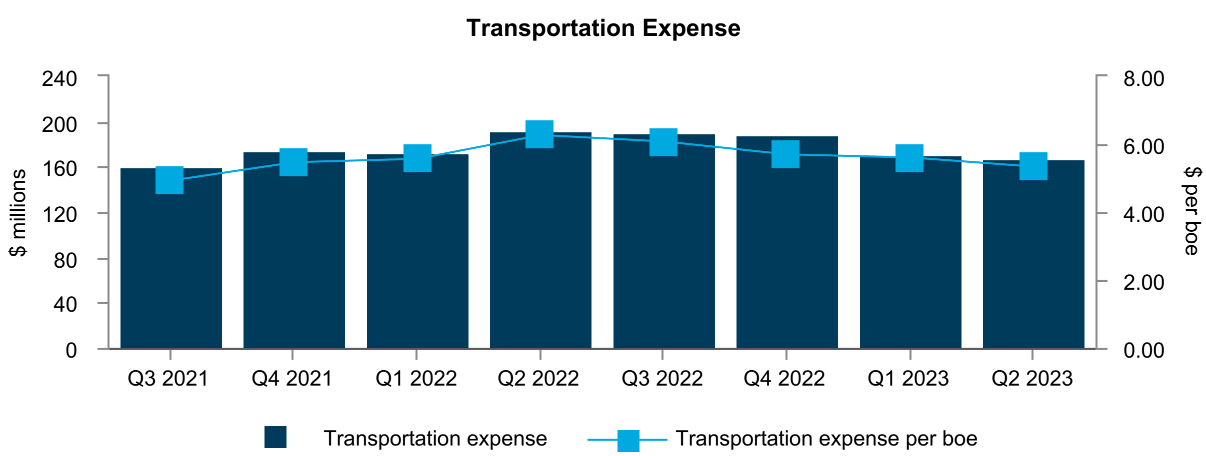
Transportation expense for the three and six months ended June 30, 2023 was $166.9 million and $337.8 million, a decrease of 13 per cent and seven per cent, from $191.7 million and $364.3 million for the three and six months ended June 30, 2022, respectively.

Transportation expense per boe for the three and six months ended June 30, 2023 was $5.34 per boe and $5.47 per boe, a decrease of 15 per cent and seven per cent, from $6.27 per boe and $5.91 per boe for the three and six months ended June 30, 2022, respectively.

The decrease in transportation expense for the three and six months ended June 30, 2023, relative to the same periods in 2022, reflects modifications to certain natural gas transportation contracts and lower fuel gas expense, partially offset by an increase in pipeline tariffs and trucking costs associated with crude oil and liquids transportation. The cost of fuel gas is recognized in transportation expense with a corresponding offset to commodity sales from production.

ARC enters into firm transportation service commitments in order to secure diversified market access for both its current production as well as anticipated production from facility infrastructure planned to be operational in the future. ARC's transportation contract portfolio is monitored on an ongoing basis and contracts are assessed at period end to determine the existence of any contracts that are onerous; none were identified at June 30, 2023. For information regarding ARC's payment obligations under its future transportation commitments, refer to Note 15 "Commitments and Contingencies" in the financial statements.

Exhibit 14



G&A

G&A expense before share-based compensation increased 25 per cent to $34.3 million in the second quarter of 2023 from $27.4 million in the second quarter of 2022. For the six months ended June 30, 2023, ARC's G&A expense before share-based compensation was $70.3 million, a 24 per cent increase from $56.7 million in 2022. The increase for the three and six months ended June 30, 2023 is primarily due to an increase in ARC's workforce size, increased employee compensation costs, and increased corporate expenses. This was partially offset by an increase in capitalized G&A.

During the three months ended June 30, 2023, ARC recognized G&A expense of $22.7 million associated with its share-based compensation plans, compared to $8.9 million during the same period of the prior year. The increase for the three months ended June 30, 2023 is primarily due to an increase in ARC's share price and the average performance multiplier factor, compared to decreases in the same period of the prior year, impacting the revaluation of the liability associated with ARC's share-based compensation plans.

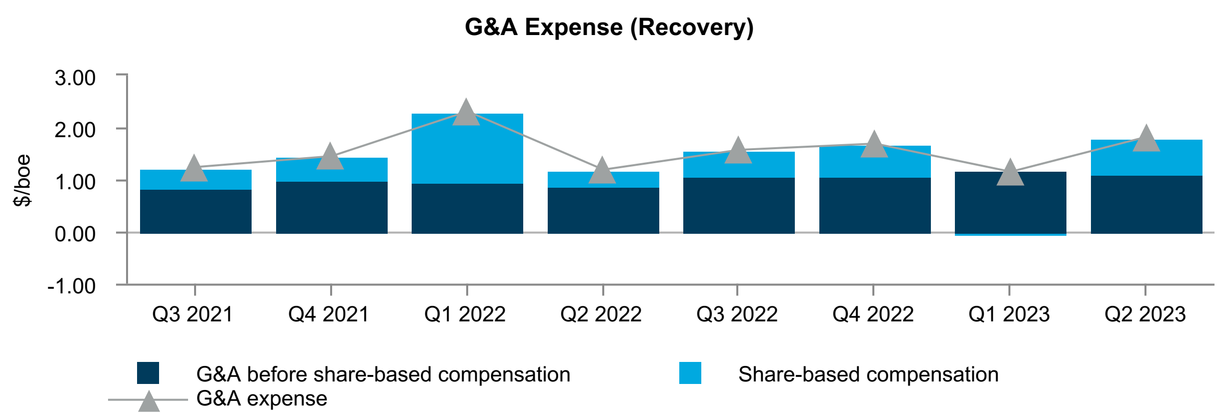
During the six months ended June 30, 2023, ARC recognized G&A expense of $21.7 million associated with its share-based compensation plans, compared to $51.1 million during the same period of the prior year. The decrease for the six months ended June 30, 2023 is primarily due to a decrease in ARC's share price compared to an increase in the same period of the prior year, impacting the amount of cash payments made in the periods as well as the revaluation of the liability associated with ARC's share-based compensation plans.

Table 13 is a breakdown of G&A expense:

Table 13

	Three Months Ended				Six Months Ended		
G&A Expense ($ millions, except per boe)	March 31, 2023	**June 30, 2023**	June 30, 2022	% Change	**June 30, 2023**	June 30, 2022	% Change
G&A expense before share-based compensation expense	36.0	**34.3**	27.4	25	**70.3**	56.7	24
G&A – share-based compensation expense (recovery)	(1.0)	**22.7**	8.9	155	**21.7**	51.1	(58)
G&A expense	35.0	**57.0**	36.3	57	**92.0**	107.8	(15)
G&A expense before share-based compensation expense per boe	1.18	**1.10**	0.90	22	**1.14**	0.92	24
G&A – share-based compensation expense (recovery) per boe	(0.03)	**0.72**	0.29	148	**0.35**	0.83	(58)
G&A expense per boe	1.15	**1.82**	1.19	53	**1.49**	1.75	(15)

Exhibit 15



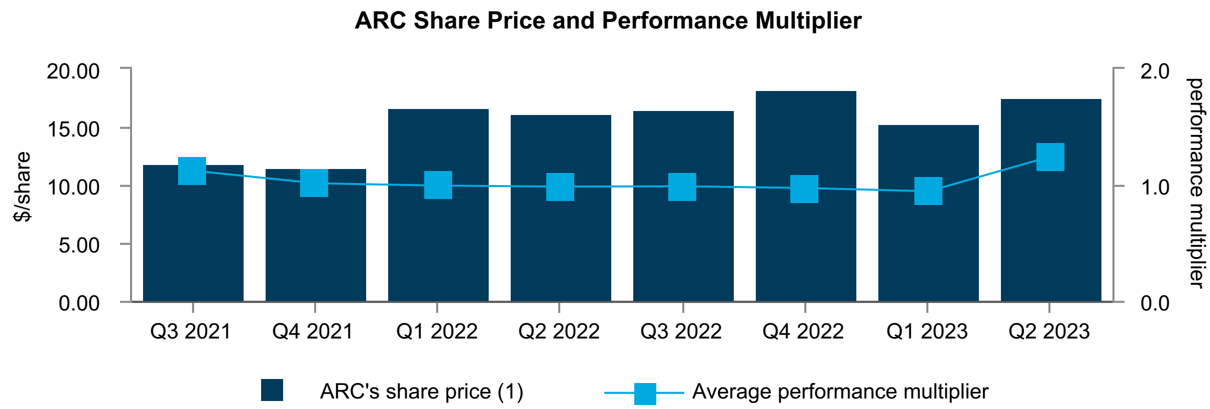
Share-based Compensation Plans

For a description of ARC's various share-based compensation plans and related accounting policies, refer to Note 3 "Summary of Accounting Policies" and Note 21 "Share-based Compensation Plans" of ARC's audited consolidated financial statements as at and for the year ended December 31, 2022.

Restricted Share Unit ("RSU") and Performance Share Unit ("PSU") Plans

At June 30, 2023, ARC had 2.3 million RSUs and 3.9 million PSUs outstanding under these plans. For the three and six months ended June 30, 2023, ARC recognized G&A in relation to its RSU and PSU Plans of $19.0 million and $20.4 million ($8.3 million and $41.7 million for the three and six months ended June 30, 2022), respectively. The change in expense recognized for the three and six months ended June 30, 2023 reflects the change in valuation of awards outstanding throughout the respective period.

Exhibit 16



(1) Denotes ARC's closing share price on the Toronto Stock Exchange ("TSX") on the last trading day of each respective quarter.

Tables 14 and 14a show the changes to the outstanding RSU and PSU awards for plans that existed prior to a business combination (the "Legacy Plans") and plans acquired through a business combination (the "Acquired Plans") during the six months ended June 30, 2023:

Table 14

Legacy Plans (number of awards, thousands)	**RSUs**	**PSUs** [1]	**Total RSUs and PSUs**
Balance, December 31, 2022	2,687	5,560	8,247
Granted	**493**	**656**	**1,149**
Distributed	**(840)**	**(2,316)**	**(3,156)**
Forfeited	**(57)**	**(51)**	**(108)**
Balance, June 30, 2023	**2,283**	**3,849**	**6,132**

(1) Based on underlying awards before any effect of the performance multiplier.

Table 14a

Acquired Plans (number of awards, thousands)	**RSUs**	**PSUs** [1]	**Total RSUs and PSUs**
Balance, December 31, 2022	191	126	317
Granted [2]	**2**	**1**	**3**
Distributed	**(177)**	**(114)**	**(291)**
Forfeited	**(1)**	**—**	**(1)**
Balance, June 30, 2023	**15**	**13**	**28**

(1) Based on underlying awards before any effect of the performance multiplier.
(2) Grants relate to additional performance awards for grants that vested in the current period.

Due to the variability in the expected future payments under the plans, ARC estimates that between $40.6 million and $177.1 million could be paid out in 2023 through 2026 based on the period-end share price, accrued dividends, ARC's market performance relative to its peers, and ARC's corporate scorecard results. Table 15 is a summary of the range of future expected payments under the RSU and PSU Plans based on variability of the performance multiplier and awards outstanding under the RSU and PSU Plans as at June 30, 2023:

Table 15

Value of RSU and PSU Awards as at June 30, 2023	**Performance Multiplier**		
(awards thousands and $ millions, except per share)	**—**	**1.0**	**2.0**
Estimated awards to vest [1]			
RSUs	2,298	2,298	2,298
PSUs	—	3,862	7,724
Total awards	**2,298**	**6,160**	**10,022**
Share price [2]	17.67	17.67	17.67
Value of RSU and PSU awards upon vesting	**40.6**	**108.9**	**177.1**
2023	12.0	27.0	41.9
2024	16.8	42.8	68.8
2025	9.2	26.4	43.6
2026	2.6	12.7	22.8

(1) Includes additional estimated awards to be issued under the Legacy RSU and PSU Plans for dividends accrued to-date.
(2) Per share outstanding. Values will fluctuate over the vesting period based on the volatility of the underlying share price. Assumes a future share price equal to the TSX closing price at June 30, 2023.

Share Option Plans

At June 30, 2023, ARC had 2.1 million share options outstanding under the Legacy Plans, with a weighted average exercise price of $12.17. At June 30, 2023, ARC had 1.1 million share options outstanding under the Acquired Plans, with a weighted average exercise price of $19.19. All share options were exercisable at June 30, 2023.

ARC recognized a nominal amount and $0.1 million of compensation expense relating to share option plans for the three and six months ended June 30, 2023 (nominal for the three and six months ended June 30, 2022), respectively.

Long-term Restricted Share Award ("LTRSA") Plan

At June 30, 2023, ARC had 1.0 million restricted shares outstanding under the LTRSA Plan. ARC recognized G&A of $0.3 million and $0.6 million relating to the LTRSA Plan during the three and six months ended June 30, 2023 ($0.3 million and $0.6 million for the three and six months ended June 30, 2022), respectively.

Deferred Share Unit ("DSU") Plans

At June 30, 2023, ARC had 0.8 million DSUs outstanding under the Legacy Plans and 0.4 million DSUs outstanding under the Acquired Plans. For the three and six months ended June 30, 2023, G&A of $3.4 million and $0.6 million was recognized in relation to the DSU Plans ($0.3 million and $8.8 million for the same periods in 2022), respectively.

Interest and Financing

Interest and financing for the three and six months ended June 30, 2023 was $25.7 million and $46.8 million, respectively, compared to $24.6 million and $47.1 million for the same periods of the prior year. Interest and financing per boe for the three and six months ended June 30, 2023 was $0.82 per boe and $0.76 per boe ($0.80 per boe and $0.76 per boe for the same periods of the prior year), respectively. The increase for the three months ended June 30, 2023, as compared to the same period of the prior year, is primarily the result of an increase in financing expense associated with modifications to existing leases. A breakdown of interest and financing expense is shown in Table 16:

Table 16

	Three Months Ended				Six Months Ended		
Interest and Financing ($ millions, except per boe amounts)	March 31, 2023	**June 30, 2023**	June 30, 2022	% Change	**June 30, 2023**	June 30, 2022	% Change
Bank debt and long-term notes	10.5	**12.9**	13.8	(7)	**23.4**	25.8	(9)
Lease obligations	7.4	**9.7**	8.2	18	**17.1**	16.3	5
Accretion on ARO	3.2	**3.1**	2.6	19	**6.3**	5.0	26
Interest and financing	21.1	**25.7**	24.6	4	**46.8**	47.1	(1)
Interest and financing per boe	0.69	**0.82**	0.80	3	**0.76**	0.76	—

Foreign Exchange Gain and Loss

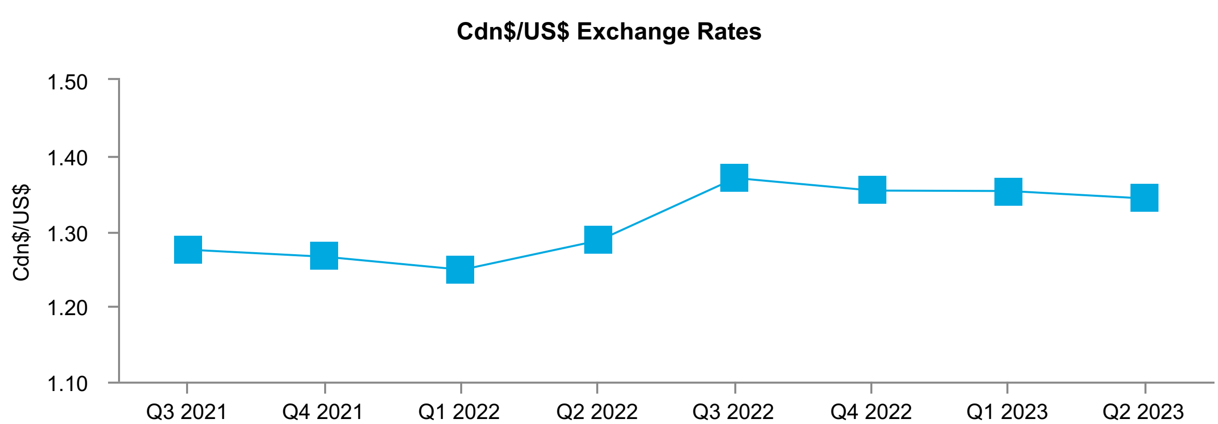
ARC recognized a loss on foreign exchange of $7.0 million in the second quarter of 2023 compared to a gain of $14.2 million in the second quarter of 2022. For the six months ended June 30, 2023, ARC recognized a foreign exchange loss of $7.4 million compared to a gain of $13.3 million for the six months ended June 30, 2022. The change in foreign exchange recognized for the three and six months ended June 30, 2023, as compared to the same periods in the prior year, primarily reflects the settlement of US$ denominated transactions.

Table 17 details the realized and unrealized components of ARC's foreign exchange gain and loss:

Table 17

	Three Months Ended				Six Months Ended		
Foreign Exchange Gain and Loss ($ millions)	March 31, 2023	**June 30, 2023**	June 30, 2022	% Change	**June 30, 2023**	June 30, 2022	% Change
Unrealized gain (loss) on US dollar-denominated accounts receivable	0.1	**(2.1)**	8.6	(124)	**(2.0)**	11.6	(117)
Realized gain (loss) on US dollar-denominated transactions	(0.5)	**(4.9)**	5.6	(188)	**(5.4)**	1.7	(418)
Foreign exchange gain (loss)	(0.4)	**(7.0)**	14.2	(149)	**(7.4)**	13.3	(156)

Exhibit 17



For the three and six months ended June 30, 2023, ARC recognized an unrealized gain on foreign currency translation adjustment in other comprehensive income of $3.5 million and $4.8 million (unrealized loss of $6.4 million and $8.4 million for the three and six months ended June 30, 2022), respectively.

Taxes

ARC recognized current income tax expense of $23.0 million and $100.0 million for the three and six months ended June 30, 2023, respectively, compared to $90.0 million and $145.0 million for the same periods in 2022. The decrease in current income tax expense for the three and six months ended June 30, 2023, is primarily due to lower expected taxable income for the periods resulting from a decrease in average realized commodity prices compared to the same periods of 2022.

For the three months ended June 30, 2023, deferred income tax expense of $56.5 million was recognized, compared to $145.5 million for the same period in 2022. The decrease in deferred income tax expense primarily relates to lower income tax pools claimed relative to DD&A expense and a lower unrealized gain on risk management contracts for the three months ended June 30, 2023, as compared to the same period of 2022.

For the six months ended June 30, 2023, deferred income tax expense of $146.9 million was recognized, compared to $63.9 million for the same period in 2022. The increase in deferred income tax expense primarily relates to an unrealized gain on risk management contracts for the six months ended June 30, 2023, as compared to an unrealized loss on risk management contracts for the same period of 2022.

The income tax pools, which are detailed in Table 18, are deductible at various rates and annual deductions associated with the initial tax pools will decline over time.

Table 18

Income Tax Pool Type ($ millions)	**June 30, 2023**	**Annual Deductibility**
Canadian oil and gas property expense	873.7	10% declining balance
Canadian development expense	1,864.2	30% declining balance
Undepreciated capital cost	1,671.8	Primarily 25% declining balance
Other	59.3	Various rates, 5% declining balance to 20%
Total federal tax pools	**4,469.0**	

DD&A and Impairment of PP&E

For the three and six months ended June 30, 2023, ARC recognized DD&A related to its PP&E of $348.3 million and $685.2 million, respectively, compared to $314.0 million and $637.4 million for the three and six months ended June 30, 2022. The increase in DD&A for the three and six months ended June 30, 2023, compared to the same periods in the prior year, is due to higher DD&A rates reflecting increased future development costs associated with certain assets.

A breakdown of DD&A expense is summarized in Table 19**:**

Table 19

	Three Months Ended				Six Months Ended		
DD&A Expense ($ millions, except per boe amounts)	March 31, 2023	**June 30, 2023**	June 30, 2022	% Change	**June 30, 2023**	June 30, 2022	% Change
Depletion of crude oil and natural gas assets	313.5	**325.9**	289.9	12	**639.4**	589.4	8
Depreciation of corporate assets	5.0	**5.6**	3.8	47	**10.6**	7.5	41
Depreciation of right-of-use ("ROU") assets under lease	18.4	**16.8**	20.3	(17)	**35.2**	40.5	(13)
DD&A expense	336.9	**348.3**	314.0	11	**685.2**	637.4	7
DD&A expense per boe (1)	11.06	**11.14**	10.27	8	**11.10**	10.35	7

(1) Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A for an explanation of composition.

For the three and six months ended June 30, 2023, ARC recognized impairment charges of $nil and $2.1 million ($nil for three and six months ended June 30, 2022), respectively, related to the disposal of certain non-core assets.

Cash Flow used in Investing Activities, Capital Expenditures, Acquisitions, and Dispositions

ARC's cash flow used in investing activities was $464.4 million and $861.8 million during the three and six months ended June 30, 2023, respectively, compared to $363.9 million and $710.6 million for the three and six months ended June 30, 2022. In addition to cash flow used in investing activities, Management uses the non-GAAP financial measure of capital expenditures to monitor its capital investments relative to those budgeted by the Company on an annual basis. ARC excludes acquisition and disposition activities from its annual capital budget, as well as the accounting impact of any accrual changes or payments under certain lease arrangements. Table 20 is a reconciliation of ARC's cash flow used in investing activities to capital expenditures:

Table 20

	Three Months Ended			Six Months Ended	
Capital expenditures ($ millions)	March 31, 2023	**June 30, 2023**	June 30, 2022	**June 30, 2023**	June 30, 2022
Cash flow used in investing activities	397.4	**464.4**	363.9	**861.8**	710.6
Adjusted for the following items:					
Acquisition of crude oil and natural gas assets	(0.5)	**—**	(0.8)	**(0.5)**	(1.6)
Disposal of crude oil and natural gas assets	73.6	**—**	—	**73.6**	7.4
Long-term investments	(1.2)	**(3.2)**	(0.1)	**(4.4)**	(0.1)
Change in non-cash investing working capital	16.0	**(44.8)**	(13.8)	**(28.8)**	(36.5)
Other [(1)]	2.1	**0.1**	3.2	**2.2**	5.9
Capital expenditures	487.4	**416.5**	352.4	**903.9**	685.7

(1) Comprises non-cash capitalized costs related to the Company's ROU asset depreciation and share-based compensation.

Capital expenditures were $416.5 million and $903.9 million for the three and six months ended June 30, 2023, respectively, compared to $352.4 million and $685.7 million for the three and six months ended June 30, 2022. Capital expenditures for the three and six months ended June 30, 2023 included the drilling of 32 and 78 crude oil and natural gas wells and the completion of 49 and 83 crude oil and natural gas wells, respectively, across ARC's asset base. Additional investment during the three and six months ended June 30, 2023 has been focused on the Sunrise facility expansion and the electrification of the Dawson Phase III and IV facilities, all of which were completed in the second quarter of 2023. Electrification of the Dawson III and IV facilities was supported in part through funding provided by the Province of British Columbia. Capital expenditures during the second quarter of 2023 also included investment in Attachie Phase I following project sanctioning during the same period.

During the six months ended June 30, 2023, ARC disposed of certain non-core assets across its portfolio for cash proceeds of $73.6 million.

For more information regarding ARC's planned capital expenditures for 2023, including capital expenditures in relation to Attachie Phase I, refer to the news releases dated May 4, 2023, February 9, 2023, and November 3, 2022, entitled, "*ARC Resources Ltd. Reports First Quarter 2023 Results and Announces the Sanction of Attachie and Dividend Increase*", "*ARC Resources Ltd. Reports Record Year-end 2022 Results and Reserves*", and "*ARC Resources Ltd. Reports Third Quarter 2022 Results, Dividend Increase, and Announces 2023 Budget*", available on ARC's website at www.arcresources.com and on SEDAR+ at www.sedarplus.ca.

A breakdown of capital expenditures and acquisitions for the three months ended June 30, 2023 and June 30, 2022 is shown in Table 21:

Table 21

	Three Months Ended June 30						
	2023			2022

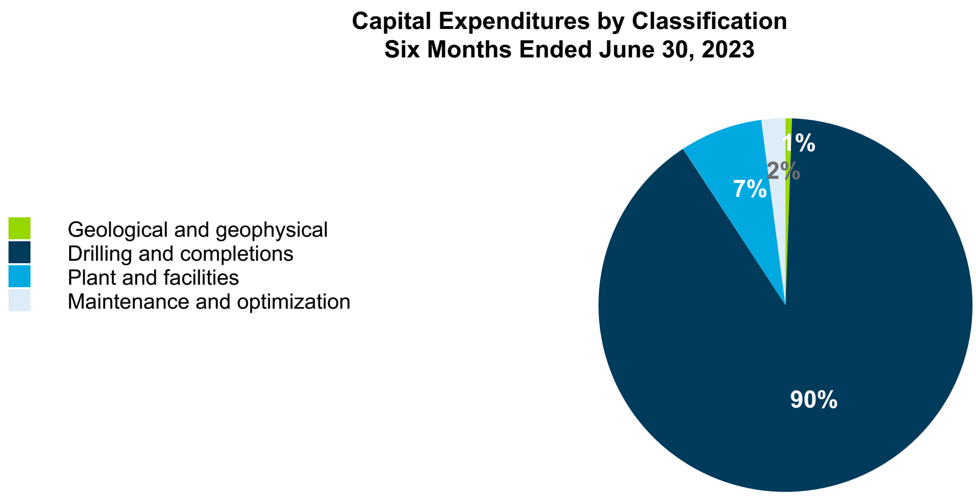
Exhibit 18a



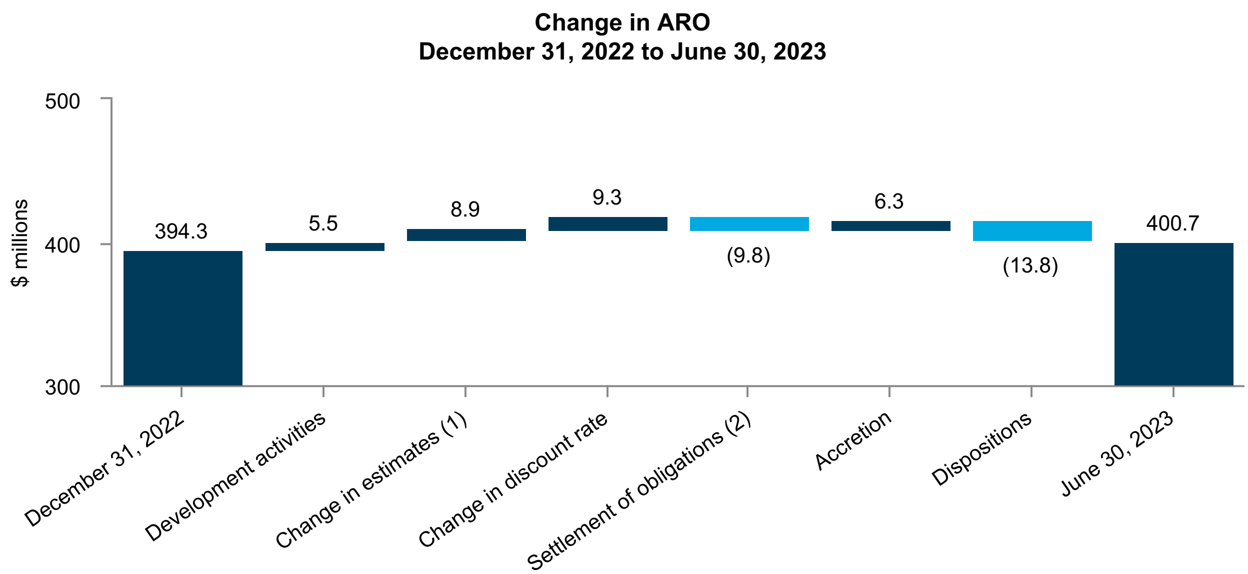
Asset Retirement Obligation

At June 30, 2023, ARC recognized ARO of $400.7 million ($394.3 million at December 31, 2022), for the future abandonment and reclamation of ARC's crude oil and natural gas assets, of which $16.0 million is classified as current and $384.7 million is classified as long-term ($16.0 million and $378.3 million at December 31, 2022, respectively). The estimated ARO includes assumptions in respect of actual future costs to abandon wells and decommission and reclaim assets, the time frame in which such costs will be incurred, and annual inflation factors. The future liability has been discounted at a liability-specific risk-free rate of 3.2 per cent (3.3 per cent at December 31, 2022).

Accretion charges of $3.1 million and $6.3 million for the three and six months ended June 30, 2023 ($2.6 million and $5.0 million for the same periods in 2022), respectively, have been recognized in interest and financing in the unaudited condensed interim consolidated statements of income to reflect the increase in ARO associated with the passage of time. Actual spending under ARC's program for the three and six months ended June 30, 2023 was $2.9 million and $9.4 million ($2.0 million and $9.3 million for the same periods in 2022), respectively.

Environmental stewardship remains a core value at ARC and the Company maintains a planned and scheduled approach to its abandonment and reclamation activities.

Exhibit 19



(1) Relates to changes in cost estimates of future obligations and anticipated settlement dates of ARO.
(2) For the three and six months ended June 30, 2023, $nil and $0.4 million of obligations were indirectly settled through a government subsidy, whereby third-party service providers were reimbursed on behalf of ARC ($0.2 million and $0.5 million for the three and six months ended June 30, 2022).

Capitalization, Financial Resources and Liquidity

ARC's capital management objective is to fund dividend payments, current period abandonment and reclamation expenditures, and capital expenditures necessary for the replacement of production declines using only funds from operations. Profitable growth activities will be financed with a combination of funds from operations and other sources of capital. ARC believes that investing in development activities that prioritize profitability over production growth creates significant long-term shareholder value.

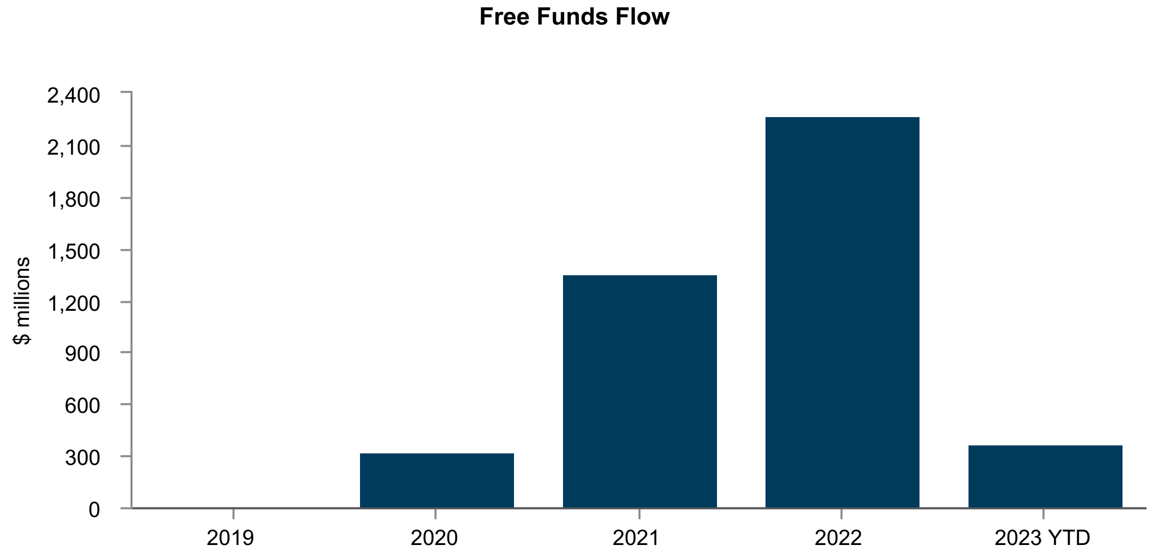
Maintaining targeted debt levels, paying a sustainable dividend, and exercising capital discipline to manage a moderate pace of development and control its corporate decline rate are the basis for ARC's current capital allocation. ARC takes a portfolio approach by periodically evaluating its capital allocation priorities, considering returns to shareholders through sustainable dividend increases and/or share repurchases, and long-term development investments.

ARC uses free funds flow, defined as funds from operations less capital expenditures, as an indicator of the funds available for capital allocation. For the three and six months ended June 30, 2023, free funds flow was $144.3 million and $374.3 million ($677.3 million and $1.1 billion for the three and six months ended June 30, 2022), respectively. For the calculation of free funds flow, refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A.

ARC is committed to returning between 50 and 100 per cent of free funds flow to shareholders through dividends and repurchase of shares, and directing any remainder to debt reduction. ARC intends to return essentially all free funds flow to shareholders in 2023. During the six months ended June 30, 2023, ARC distributed 107 per cent of free funds flow to shareholders. Currently, the optimal mechanism to return shareholder capital is through a sustainable base dividend that grows over time, and continued share repurchases. Subject to approval by ARC's board of directors (the "Board"), the Company anticipates dividend increases could exceed 10 per cent per annum.

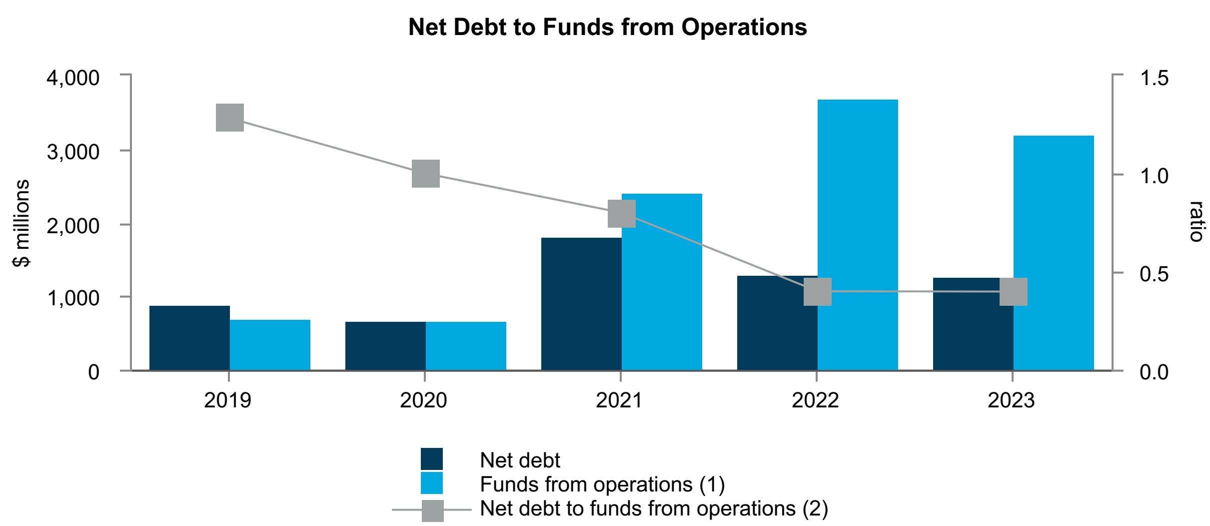
During the six months ended June 30, 2023, ARC announced a 13 per cent dividend increase from $0.15 per share per quarter to $0.17 per share per quarter and repurchased 12.8 million common shares under its normal course issuer bid ("NCIB").

Exhibit 20



ARC maintains financial flexibility through its strong balance sheet. Management targets its net debt to be approximately 1.0 times funds from operations and manages its capital structure to achieve that target over the long term. At June 30, 2023, ARC's net debt was 0.4 times its funds from operations.

Exhibit 21



(1) 12-month trailing funds from operations.
(2) Composed of net debt divided by 12-month trailing funds from operations.

At June 30, 2023, ARC had total credit capacity of $2.8 billion, of which $1.1 billion was outstanding. At June 30, 2023, ARC's long-term debt had a weighted average interest rate of 3.4 per cent. For more information, refer to Note 7 "Long-term Debt" in the financial statements.

At June 30, 2023, ARC was in compliance with the financial covenants related to its credit facility which are as follows:

Table 22

Covenant Description	Position at June 30, 2023
Consolidated Debt not to exceed 60 per cent of Total Capitalization	14 %
Consolidated Tangible Assets of the Restricted Group must exceed 80 per cent of Consolidated Tangible Assets	100 %

Shareholders' Equity

During the six months ended June 30, 2023, ARC repurchased 12.8 million common shares under its NCIB at a weighted average price per share of $15.85 for a total cost of $202.9 million. Shares were cancelled upon repurchase.

At June 30, 2023, ARC has recognized a liability of $20.0 million ($24.8 million at December 31, 2022) for share repurchases estimated to take place during its internal blackout period under an automatic share purchase plan agreement with an independent broker.

At June 30, 2023, there were 608.4 million common shares outstanding and 3.2 million share options outstanding under ARC's share option plans. For more information, refer to the section entitled "Share Option Plans" contained within this MD&A.

At June 30, 2023, ARC had 1.0 million restricted shares outstanding under its LTRSA Plan. For more information on the restricted shares outstanding and held in trust under ARC's LTRSA Plan, refer to the section entitled "Long-term Restricted Share Award Plan" contained within this MD&A.

Dividends

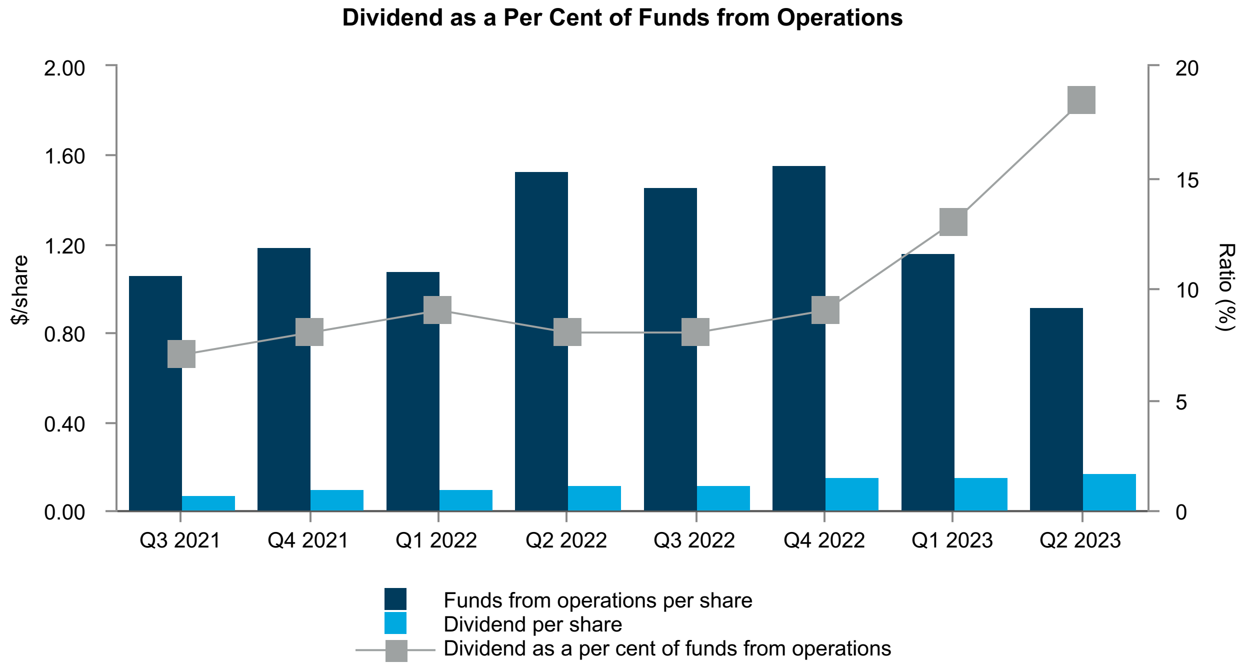
ARC's business strategy is focused on value creation and long-term returns to shareholders, with the dividend being an important component. In May 2023, ARC announced a 13 per cent increase to its quarterly dividend, from $0.15 per share to $0.17 per share. The dividend increase became effective with the second quarter dividend and was paid on July 17, 2023 to shareholders of record on June 30, 2023.

In the second quarter of 2023, ARC declared dividends totaling $103.7 million ($0.17 per share) compared to $79.9 million ($0.12 per share) in the same period of 2022. ARC declared dividends of $195.6 million ($0.32 per share) for the six months ended June 30, 2023 compared to $148.1 million ($0.22 per share) for the same period in 2022.

ARC's dividend as a per cent of funds from operations[1] increased from an average of eight per cent for the three and six months ended June 30, 2022, to an average of 18 per cent and 15 per cent for the three and six months ended June 30, 2023, respectively, as a result of a higher quarterly dividend per share and a decrease in funds from operations compared to the same periods of the prior year.

(1) Refer to the section entitled "Non-GAAP and Other Financial Measures" contained within this MD&A for an explanation of composition.

Exhibit 22



The actual amount of future monthly dividends is proposed by Management and is subject to the approval and discretion of the Board. The Board reviews future dividends in conjunction with their review of quarterly financial and operational results.

Please refer to ARC's website at www.arcresources.com for details of the estimated quarterly dividend amounts and dividend dates for 2023.

Contractual Obligations and Commitments

At June 30, 2023, ARC's total contractual obligations and commitments were $6.8 billion. These include obligations and commitments in place at December 31, 2022, less payments made during the six months ended June 30, 2023, as well as additional purchase and service commitments.

Off-Balance Sheet Financing

ARC does not have any guarantees or off-balance sheet arrangements that have been excluded from the balance sheets other than commitments disclosed in Note 15 "Commitments & Contingencies" of the financial statements.

Critical Accounting Estimates

ARC continuously refines and documents its management and internal reporting systems to ensure that accurate and timely internal and external information is gathered and disseminated.

ARC's financial and operational results incorporate certain estimates including:

- estimated commodity sales from production at a specific reporting date for which actual revenues have not yet been received, including associated estimated credit losses;
- estimated royalty obligations, transportation, and operating expenses at a specific reporting date for which costs have been incurred but have not yet been settled;
- estimated capital expenditures on projects that are in progress;
- estimated DD&A charges that are based on estimates of reserves that ARC expects to recover in the future;
- estimated future recoverable value of PP&E, E&E, and goodwill and any associated impairment charges or reversals;

- estimated fair values of financial instruments that are subject to fluctuation depending upon the underlying forward curves for commodity prices, foreign exchange rates and interest rates, as well as volatility curves, and the risk of non-performance, including embedded derivatives;
- estimated value of ARO that is dependent upon estimates of future costs and timing of expenditures;
- estimated value of ROU assets and lease obligations that are dependent upon estimates of discount rates and timing of lease payments;
- estimated compensation expense under ARC's share-based compensation plans including the PSUs awarded under the PSU Plans that are dependent on the final number of PSU awards that eventually vest based on a performance multiplier; and
- estimated fair values of assets acquired and liabilities assumed in a business combination.

ARC has hired individuals and consultants who have the skills required to make such estimates and ensures that individuals or departments with the most knowledge of the activity are responsible for the estimates. Further, past estimates are reviewed and compared to actual results, and actual results are compared to budgets in order to make more informed decisions on future estimates. For further information on the determination of certain estimates inherent in the financial statements, refer to Note 5 "Management Judgments and Estimation Uncertainty" in the audited consolidated financial statements for the year ended December 31, 2022.

CONTROL ENVIRONMENT

Internal Control over Financial Reporting ("ICFR")

ARC is required to comply with National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings* ("NI 52-109"). The certification of interim filings for the interim period ended June 30, 2023 requires that ARC disclose in the interim MD&A any changes in ARC's ICFR that occurred during the period that have materially affected, or are reasonably likely to materially affect, ARC's ICFR. ARC confirms that no such changes were made to its ICFR during the three and six months ended June 30, 2023.

FINANCIAL REPORTING UPDATE

New Accounting Policies

Amendments to IAS 12 *Income Taxes*

On January 1, 2023, ARC adopted *Deferred Tax related to Assets and Liabilities arising from a Single Transaction* issued by the IASB which made amendments to IAS 12 *Income Taxes.* The amendments require entities to recognize deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. There was not a material impact to ARC's financial statements.

On May 23, 2023, ARC adopted the measurement aspects of the amendment to *IAS 12 International Tax Reform - Pillar Two Model Rules* which provides an exception to the requirements for income tax accounting that an entity shall neither recognize nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

Non-GAAP and Other Financial Measures

Throughout this MD&A and in other materials disclosed by the Company, ARC employs certain measures to analyze financial performance, financial position, and cash flow. These non-GAAP and other financial measures do not have any standardized meaning prescribed under IFRS and therefore may not be comparable to similar measures presented by other entities. The non-GAAP and other financial measures should not be considered to be more meaningful than GAAP measures which are determined in accordance with IFRS, such as net income, cash flow from operating activities, and cash flow used in investing activities, as indicators of ARC's performance.

Non-GAAP Financial Measures

Capital Expenditures

ARC uses capital expenditures to monitor its capital investments relative to those budgeted by the Company on an annual basis. ARC's capital budget excludes acquisition and disposition activities as well as the accounting impact of any accrual changes or payments under certain lease arrangements. The most directly comparable GAAP measure for capital expenditures is cash flow used in investing activities. Table 23 details the composition of capital expenditures and its reconciliation to cash flow used in investing activities.

Table 23

	Three Months Ended			Six Months Ended	
Capital Expenditures ($ millions)	March 31, 2023	**June 30, 2023**	June 30, 2022	**June 30, 2023**	June 30, 2022
Cash flow used in investing activities	397.4	**464.4**	363.9	**861.8**	710.6
Acquisition of crude oil and natural gas assets	(0.5)	**—**	(0.8)	**(0.5)**	(1.6)
Disposal of crude oil and natural gas assets	73.6	**—**	—	**73.6**	7.4
Long-term investments	(1.2)	**(3.2)**	(0.1)	**(4.4)**	(0.1)
Change in non-cash investing working capital	16.0	**(44.8)**	(13.8)	**(28.8)**	(36.5)
Other (1)	2.1	**0.1**	3.2	**2.2**	5.9
Capital expenditures	487.4	**416.5**	352.4	**903.9**	685.7

(1) Comprises non-cash capitalized costs related to the Company's ROU asset depreciation and share-based compensation.

Free Funds Flow

ARC uses free funds flow as an indicator of the efficiency and liquidity of ARC's business, measuring its funds after capital investment available to manage debt levels, pay dividends, and return capital to shareholders through share repurchases. ARC computes free funds flow as funds from operations generated during the period less capital expenditures. Capital expenditures is a non-GAAP financial measure. By removing the impact of current period capital expenditures from funds from operations, Management monitors its free funds flow to inform its capital allocation decisions. The most directly comparable GAAP measure to free funds flow is cash flow from operating activities. Table 24 details the calculation of free funds flow and the reconciliation of cash flow from operating activities to free funds flow.

Table 24

	Three Months Ended			Six Months Ended	
Free Funds Flow ($ millions)	March 31, 2023	**June 30, 2023**	June 30, 2022	**June 30, 2023**	June 30, 2022
Cash flow from operating activities	540.3	**550.9**	1,092.6	**1,091.2**	1,851.4
Net change in other liabilities	13.7	**(13.9)**	31.2	**(0.2)**	72.0
Change in non-cash operating working capital	163.4	**23.8**	(94.1)	**187.2**	(150.1)
Funds from operations	717.4	**560.8**	1,029.7	**1,278.2**	1,773.3
Capital expenditures	(487.4)	**(416.5)**	(352.4)	**(903.9)**	(685.7)
Free funds flow	230.0	**144.3**	677.3	**374.3**	1,087.6

Netback

ARC computes netback as commodity sales from production less royalties, operating, and transportation expense. Management believes that netback is a key industry performance indicator and one that provides investors with information that is also commonly presented by other crude oil and natural gas producers. ARC's netback is disclosed in Table 12 within this MD&A which includes its most directly comparable GAAP measure, commodity sales from production.

Adjusted EBIT

ARC calculates adjusted EBIT as net income (loss) plus interest and financing, less accretion of ARO, plus total income taxes (recovery). ARC uses adjusted EBIT as a measure of long-term operating performance and as a component in the calculation for ROACE, which is calculated by ARC for the 12 months preceding the period end, on an annual basis, and a four-year basis. Table 25 contains a reconciliation of adjusted EBIT to the most directly comparable GAAP measure, net income (loss).

Table 25

	Twelve Months Ended	Twelve Months Ended December 31				
Adjusted EBIT ($ millions)	**June 30, 2023**	2022	2021	2020	2019	2019 - 2022 Average(1)
Net income (loss)	**2,462.6**	2,302.3	786.6	(547.2)	(27.6)	628.5
Add interest and financing	**96.9**	97.2	126.1	45.6	48.3	79.3
Less accretion of ARO	**(12.3)**	(11.0)	(9.5)	(6.3)	(7.3)	(8.5)
Add income taxes (recovery)	**713.9**	675.9	208.5	(207.7)	(100.9)	144.0
Adjusted EBIT	**3,261.1**	3,064.4	1,111.7	(715.6)	(87.5)	843.3

(1) Average for the years ended December 31, 2019, 2020, 2021, and 2022.

Average Capital Employed

ARC calculates average capital employed as the total of net debt plus current and long-term portions of lease obligations and shareholders' equity. ARC uses average capital employed as a measure of long-term capital management and operating performance, and as a component in the calculation for ROACE. Table 26 contains a reconciliation of average capital employed to the most directly comparable GAAP measure, shareholders' equity.

Table 26

	Twelve Months Ended	Twelve Months Ended December 31				
Average Capital Employed ($ millions)	**June 30, 2023**	2022	2021	2020	2019	2019 - 2022 Average(1)
Net debt - beginning of period	**1,511.4**	1,828.7	693.5	894.0	702.7	702.7
Current portion of lease obligations	**105.3**	109.3	15.3	16.3	—	—
Long-term portion of lease obligations	**721.2**	760.0	33.9	29.9	—	—
Shareholders' equity - beginning of period	**5,931.5**	5,927.5	2,790.6	3,439.9	3,675.8	3,675.8
Opening capital employed (A)	**8,269.4**	8,625.5	3,533.3	4,380.1	4,378.5	4,378.5
Net debt - end of period	**1,281.1**	1,301.5	1,828.7	693.5	894.0	1,301.5
Current portion of lease obligations	**56.7**	92.4	109.3	15.3	16.3	92.4
Long-term portion of lease obligations	**803.2**	702.9	760.0	33.9	29.9	702.9
Shareholders' equity - end of period	**7,124.5**	6,653.5	5,927.5	2,790.6	3,439.9	6,653.5
Closing capital employed (B)	**9,265.5**	8,750.3	8,625.5	3,533.3	4,380.1	8,750.3
Average capital employed (A+B)/2	**8,767.5**	8,687.9	6,079.4	3,956.7	4,379.3	6,564.4

(1) Average for the years ended December 31, 2019, 2020, 2021, and 2022.

Non-GAAP Ratios

Netback per boe

ARC calculates netback per boe as netback divided by weighted average daily production. Netback is a non-GAAP financial measure component of netback per boe. Management believes that netback per boe is a key industry performance measure of operational efficiency and one that provides investors with information that is also commonly presented by other crude oil and natural gas producers. ARC's netback per boe is disclosed in Table 12a within this MD&A.

Free Funds Flow per Share

ARC presents free funds flow per share by dividing free funds flow by the Company's diluted or basic weighted average common shares outstanding. Free funds flow is a non-GAAP financial measure. Management believes that free funds flow per share provides investors an indicator of funds generated from the business that could be allocated to each shareholder's equity position.

Return on Average Capital Employed

ARC calculates ROACE, expressed as a percentage, as adjusted EBIT divided by the average capital employed. The components adjusted EBIT and average capital employed are non-GAAP financial measures. ARC uses ROACE as a measure of long-term financial performance, to measure how effectively Management utilizes the capital it has been provided and to demonstrate to shareholders the returns generated over the long term. ROACE is calculated by ARC for the 12 months preceding the period end, on an annual basis, and a four-year basis in Table 27:

Table 27

	Twelve Months Ended	Twelve Months Ended December 31				
ROACE ($ millions)	**June 30, 2023**	2022	2021	2020	2019	2019 - 2022 Average[(1)]
Adjusted EBIT	**3,261.1**	3,064.4	1,111.7	(715.6)	(87.5)	843.3
Divided by average capital employed	**8,767.5**	8,687.9	6,079.4	3,956.7	4,379.3	6,564.4
ROACE (%)	**37**	35	18	(18)	(2)	13

(1) Average for the years ended December 31, 2019, 2020, 2021, and 2022.

Capital Management Measures

Funds from Operations

ARC considers funds from operations to be a key measure of capital management as it demonstrates ARC’s ability to generate the necessary funds to maintain production at current levels and fund future growth through capital investment. Management believes that such a measure provides an insightful assessment of ARC’s financial performance on a continuing basis by eliminating certain non-cash charges and actual settlements of ARO, of which the nature and timing of expenditures are discretionary. Funds from operations is not a standardized measure and therefore may not be comparable with the calculation of similar measures by other entities.

Funds from operations for the three and six months ended June 30, 2023 and 2022 is calculated as follows in Table 28:

Table 28

	Three Months Ended			**Year Ended**	
Funds from Operations ($ millions)	March 31, 2023	**June 30, 2023**	June 30, 2022	**June 30, 2023**	June 30, 2022
Cash flow from operating activities	540.3	**550.9**	1,092.6	**1,091.2**	1,851.4
Net change in other liabilities	13.7	**(13.9)**	31.2	**(0.2)**	72.0
Change in non-cash operating working capital	163.4	**23.8**	(94.1)	**187.2**	(150.1)
Funds from operations	717.4	**560.8**	1,029.7	**1,278.2**	1,773.3

Net Debt and Net Debt to Funds from Operations

Net debt and net debt to funds from operations are used by Management as key measures to assess the Company's liquidity position at a point in time. Net debt and net debt to funds from operations is reflective of the measures used by Management to monitor its liquidity in light of operating and capital budgeting decisions. Net debt is not a standardized measure and therefore may not be comparable with the calculation of similar measures by other entities. Table 29 details the composition of ARC's net debt and net debt to funds from operations as at June 30, 2023 and December 31, 2022:

Table 29

Net Debt ($ millions, except ratio amounts)	**June 30, 2023**	December 31, 2022
Long-term debt	**1,122.0**	990.0
Accounts payable and accrued liabilities	**595.5**	1,190.9
Dividends payable	**103.7**	93.4
Cash and cash equivalents, accounts receivable, and prepaid expense	**(540.1)**	(972.8)
Net debt	**1,281.1**	1,301.5
Funds from operations (1)	**3,217.4**	3,712.5
Net debt to funds from operations (ratio) (2)	**0.4**	0.4

(1) 12-month trailing funds from operations.
(2) Composed of net debt divided by 12-month trailing funds from operations.

Supplementary Financial Measures

"Average realized commodity price" is comprised of total commodity sales from production, as determined in accordance with IFRS, divided by the Company's total production.

"Average realized condensate price" is comprised of condensate commodity sales from production, as determined in accordance with IFRS, divided by the Company's condensate production.

"Average realized crude oil price" is comprised of crude oil commodity sales from production, as determined in accordance with IFRS, divided by the Company's crude oil production.

"Average realized natural gas price" is comprised of natural gas commodity sales from production, as determined in accordance with IFRS, divided by the Company's natural gas production.

"Average realized NGLs price" is comprised of NGLs commodity sales from production, as determined in accordance with IFRS, divided by the Company's NGLs production.

"Cash flow from operating activities per basic share" is comprised of cash flow from operating activities, as determined in accordance with IFRS, divided by basic weighted average common shares outstanding.

"Cash flow from operating activities per diluted share" is comprised of cash flow from operating activities, as determined in accordance with IFRS, divided by diluted weighted average common shares outstanding.

"Commodity sales from production per basic share" is comprised of commodity sales from production, as determined in accordance with IFRS, divided by basic weighted average common shares.

"Commodity sales from production per diluted share" is comprised of commodity sales from production, as determined in accordance with IFRS, divided by diluted weighted average common shares.

"Current income tax expense, as a per cent of funds from operations" is comprised of current income tax expense, as determined in accordance with IFRS, divided by funds from operations.

"Current income tax expense per share" is comprised of current income tax expense, as determined in accordance with IFRS, divided by diluted weighted average common shares.

"DD&A expense per boe" is comprised of DD&A expense, as determined in accordance with IFRS, divided by the Company's total production.

"Dividend as a per cent of funds from operations" is comprised of dividends declared, as determined in accordance with IFRS, divided by funds from operations.

"Dividends declared per share" is comprised of dividends declared, as determined in accordance with IFRS, divided by the number of shares outstanding at the dividend record date.

"Funds from operations per basic share" is comprised of funds from operations divided by basic weighted average common shares.

"Funds from operations per diluted share" is comprised of funds from operations divided by diluted weighted average common shares.

"G&A expense per boe" is comprised of G&A expense, as determined in accordance with IFRS, divided by the Company's total production.

"G&A expense before share-based compensation expense per boe" is comprised of G&A expense as determined in accordance with IFRS, excluding share-based compensation expense, divided by the Company's total production.

"G&A – share-based compensation expense per boe" is comprised of G&A expense as determined in accordance with IFRS, excluding G&A expense not attributable to share-based compensation plans, divided by the Company's total production.

"Interest and financing expense per boe" is comprised of interest and financing expense, as determined in accordance with IFRS, divided by the Company's total production.

"Operating expense per boe" is comprised of operating expense, as determined in accordance with IFRS, divided by the Company's total production.

"Royalties as a percentage of commodity sales from production" is comprised of royalties, as determined in accordance with IFRS, divided by commodity sales from production, as determined in accordance with IFRS.

"Royalties per boe" is comprised of royalties, as determined in accordance with IFRS, divided by the Company's total production.

"Transportation expense per boe" is comprised of transportation expense, as determined in accordance with IFRS, divided by the Company's total production.

Forward-looking Information and Statements

This MD&A contains certain forward-looking information and statements within the meaning of applicable securities laws. The use of any of the words "expect," "anticipate," "continue," "estimate," "objective," "ongoing," "may," "will," "project," "should," "believe," "plans," "intends," "strategy," and similar expressions are intended to identify forward-looking information or statements. In particular, but without limiting the foregoing, this MD&A contains forward-looking information and statements pertaining to the following: ARC's 2023 annual guidance, production guidance and expense guidance, guidance with respect to current income tax expense, as a per cent of funds from operations and ARC's expectations thereof; the anticipated vesting of RSUs and PSUs, expected variability of future payments under the RSU and PSU Plans and the estimated range of future expected payments under such plans under the heading "Restricted Share Unit and Performance Share Unit Plans"; expectations regarding the value of RSUs and PSUs upon vesting; expectations regarding the anticipated decline in ARC's tax pools; the estimated ARO including assumptions in respect of future costs to abandon wells and decommission and reclaim assets, the time frame in which such costs will be incurred, and annual inflation factors under the heading "Asset Retirement Obligation"; expectations regarding ARC's embedded derivative contract and the impacts thereof; the anticipated fluctuations in the estimated fair value of the embedded derivative; ARC's capital management objectives, the anticipated sources of financing for profitable growth activities, ARC's belief that investing in development activities that prioritize profitability over production growth creates significant long-term shareholder value under the heading "Capitalization, Financial Resources and Liquidity"; ARC's target net debt to funds from operations; ARC's plans to allocate funds from operations to returns to shareholders and debt reduction; and similar statements.

The forward-looking information and statements contained in this MD&A reflect material factors, expectations, and assumptions of ARC including, without limitation: that ARC will continue to conduct its operations in a manner consistent with past operations; assumptions regarding ARC's share price; assumptions regarding the successful implementation of future agreements; that future business, regulatory, and industry conditions will be within the parameters expected by ARC, including with respect to prices, margins, demand, supply, product availability, supplier agreements, availability and cost of labour and interest, exchange and effective tax rates; assumptions with respect to global economic conditions and the accuracy of ARC's market outlook expectations for 2023 and in the future; the general continuance of current industry conditions; the continuance of existing (and in certain circumstances, the implementation of proposed) tax, royalty, and regulatory regimes; the accuracy of the estimates of ARC's reserve volumes; certain commodity price and other cost assumptions; and the continued availability of adequate debt and equity financing and funds from operations to fund its planned expenditures. ARC believes the material factors, expectations, and assumptions reflected in the forward-looking information and statements are reasonable, but no assurance can be given that these factors, expectations, and assumptions will prove to be correct.

The forward-looking information and statements included in this MD&A are not guarantees of future performance and should not be unduly relied upon. Such information and statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking information or statements including, without limitation: the success of business integration; changes in commodity prices; inflation; changes in the demand for or supply of ARC's products; public health crises, and any related actions taken by governments and businesses; potential regulatory and industry changes stemming from the results of court actions affecting regions in which ARC holds assets; risks and uncertainties related to crude oil and natural gas interests and operations on Indigenous lands; suspension of or changes to guidance, and the associated impact to production; changes to government regulations including royalty rates, taxes, and environmental and climate change regulation; market access constraints or transportation interruptions, unanticipated operating results or production declines; changes in development plans of ARC or by third-party operators of ARC's properties, increased debt levels or debt service requirements; inaccurate estimation of ARC's reserve volumes; limited, unfavorable or a lack of access to capital markets; increased costs; a lack of adequate insurance coverage; the impact of competitors; and certain other risks detailed in ARC's public disclosure documents. Readers should also carefully consider the risks discussed in the section entitled "Risk Factors" contained within the MD&A for the year ended December 31, 2022.

The internal projections, expectations, or beliefs are based on the 2023 capital budget, which is subject to change in light of ongoing results, prevailing economic conditions, commodity prices, and industry conditions and regulations. Accordingly, readers are cautioned that events or circumstances could cause results to differ materially from those predicted. The forward-looking information contained in this MD&A speak only as of the date of this MD&A, and ARC does not assume any obligation to publicly update or revise them to reflect new events or circumstances, except as may be required pursuant to applicable laws.

GLOSSARY

The following is a list of abbreviations that may be used in this MD&A:

Measurement

bbl	barrel
bbl/d	barrels per day
Mbbl	thousand barrels
MMbbl	million barrels
boe [1]	barrels of oil equivalent
boe/d [1]	barrels of oil equivalent per day
Mboe [1]	thousands of barrels of oil equivalent
MMboe [1]	millions of barrels of oil equivalent
Mcf	thousand cubic feet
Mcf/d	thousand cubic feet per day
MMcf	million cubic feet
MMcf/d	million cubic feet per day
Bcf	billion cubic feet
MMBtu	million British thermal units
GJ	gigajoule

(1) ARC has adopted the standard of 6 Mcf:1 bbl when converting natural gas to boe. Boe may be misleading, particularly if used in isolation. A boe conversion ratio of six Mcf per barrel is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead. Given that the value ratio based on the current price of crude oil as compared to natural gas is significantly different than the energy equivalency of the 6:1 conversion ratio, utilizing the 6:1 conversion ratio may be misleading as an indication of value.

Financial and Business Environment

AECO	Alberta Energy Company
AIF	annual information form
ARO	asset retirement obligation
CGU	cash-generating unit
DD&A	depletion, depreciation and amortization
DSU	Deferred Share Unit
E&E	exploration and evaluation
ESG	environmental, social, and governance
GAAP	generally accepted accounting principles
G&A	general and administrative
GHG	greenhouse gas
IAS	International Accounting Standard
IASB	International Accounting Standards Board
IFRS	International Financial Reporting Standards
JKM	Japan Korea Marker
LNG	liquefied natural gas
LTRSA	Long-term Restricted Share Award
PSO	Peace Sour
NGLs	natural gas liquids
NYMEX	New York Mercantile Exchange
PP&E	property, plant and equipment
PSU	Performance Share Unit
ROU	right-of-use
RSU	Restricted Share Unit
TSX	Toronto Stock Exchange
WTI	West Texas Intermediate

Interest paid in cash	**14.0**	13.6	**38.1**	40.3

See accompanying notes to the unaudited condensed interim consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2023 and 2022

1. Structure of the Business

The principal undertakings of ARC Resources Ltd. and any subsidiaries ("ARC" or the "Company") are to carry on the business of acquiring, developing, and holding interests in crude oil and natural gas assets.

ARC was incorporated in Alberta, Canada and the Company's registered office and principal place of business is located at 1200, 308 – 4th Avenue SW, Calgary, Alberta, Canada T2P 0H7. ARC's common shares are traded on the Toronto Stock Exchange under the symbol ARX.

2. Basis of Preparation

These unaudited condensed interim consolidated financial statements (the "financial statements") have been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting* using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These financial statements are condensed as they do not include all of the information required by IFRS for annual financial statements and therefore should be read in conjunction with ARC's audited consolidated financial statements for the year ended December 31, 2022. All financial information is reported in millions of Canadian dollars ("Cdn$"), unless otherwise noted as United States dollars ("US$").

The financial statements have been prepared on a historical cost basis, except those items that are presented at fair value as detailed in the accounting policies disclosed in Note 3 "Summary of Accounting Policies" of ARC's audited consolidated financial statements for the year ended December 31, 2022. All accounting policies and methods of computation followed in the preparation of these financial statements are consistent with those of the previous year, except as noted in Note 3 "New Accounting Policies", and for income taxes. Income taxes on net income in the interim periods are accrued using the income tax rate that would be applicable to the expected total annual net income.

All inter-entity transactions have been eliminated upon consolidation between ARC and any subsidiaries in these financial statements. ARC's operations are viewed as a single operating segment by the chief operating decision maker of the Company for the purpose of resource allocation and assessing performance.

These financial statements were authorized for issue by ARC's board of directors (the "Board") on August 2, 2023.

3. New Accounting Policies

Amendments to IAS 12 *Income Taxes*

On January 1, 2023, ARC adopted *Deferred Tax related to Assets and Liabilities arising from a Single Transaction* issued by the IASB which made amendments to IAS 12 *Income Taxes.* The amendments require entities to recognize deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. There was not a material impact to ARC's financial statements.

On May 23, 2023, ARC adopted the measurement aspects of the amendment to *IAS 12 International Tax Reform - Pillar Two Model Rules* which provides an exception to the requirements for income tax accounting that an entity shall neither recognize nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

4. Property, Plant and Equipment ("PP&E")

Cost	Development and Production Assets	Corporate Assets	Total
Balance, December 31, 2022	15,382.7	117.6	15,500.3
Additions	**894.1**	**5.2**	**899.3**
Acquisitions	**3.0**	**—**	**3.0**
Change in asset retirement cost	**14.1**	**—**	**14.1**
Assets disposed in period	**(117.1)**	**—**	**(117.1)**
Reclassification of lease payments, net of capitalized depreciation	**1.2**	**—**	**1.2**
Balance, June 30, 2023	**16,178.0**	**122.8**	**16,300.8**
Accumulated Depletion, Depreciation and Amortization ("DD&A") and Impairment			
Balance, December 31, 2022	(6,110.7)	(89.3)	(6,200.0)
DD&A	**(636.6)**	**(10.6)**	**(647.2)**
Accumulated DD&A and impairment disposed in period	**65.6**	**—**	**65.6**
Balance, June 30, 2023	**(6,681.7)**	**(99.9)**	**(6,781.6)**
Carrying Amounts			
Balance, December 31, 2022	9,272.0	28.3	9,300.3
Balance, June 30, 2023	**9,496.3**	**22.9**	**9,519.2**

For the three and six months ended June 30, 2023, $13.8 million and $20.1 million of direct and incremental overhead charges were capitalized to PP&E ($7.7 million and $26.1 million for the three and six months ended June 30, 2022), respectively. Future development costs of $9.1 billion were included in the determination of DD&A for the six months ended June 30, 2023 ($7.4 billion for the six months ended June 30, 2022).

During the six months ended June 30, 2023, ARC disposed of certain non-core assets across its portfolio for total cash proceeds of $73.6 million and recognized both an impairment charge and gain on disposal of $2.1 million and $25.9 million, respectively, in the condensed interim consolidated statements of income ("statements of income").

During the six months ended June 30, 2022, ARC disposed of certain non-core assets in Alberta for cash proceeds of $7.4 million and recognized a gain on disposal of $1.6 million in the statements of income.

5. Right-of-Use ("ROU") Assets

	Leases			Other	
Cost	Buildings and Land Use Rights	Equipment and Vehicles	Facilities	Service Contracts	Total
Balance, December 31, 2022	41.4	48.1	868.1	8.2	965.8
Modifications and terminations	**(6.3)**	**(0.6)**	**96.9**	**—**	**90.0**
Balance, June 30, 2023	**35.1**	**47.5**	**965.0**	**8.2**	**1,055.8**
Accumulated Depreciation					
Balance, December 31, 2022	(22.7)	(42.6)	(125.5)	(4.8)	(195.6)
Depreciation on ROU assets	**(0.8)**	**(3.1)**	**(33.4)**	**(0.4)**	**(37.7)**
Modifications and terminations	**0.4**	**1.8**	**—**	**—**	**2.2**
Balance, June 30, 2023	**(23.1)**	**(43.9)**	**(158.9)**	**(5.2)**	**(231.1)**
Carrying Amounts					
Balance, December 31, 2022	18.7	5.5	742.6	3.4	770.2
Balance, June 30, 2023	**12.0**	**3.6**	**806.1**	**3.0**	**824.7**

6. Lease Obligations

Carrying Amount	
Balance, December 31, 2022	795.3
Modifications and terminations	**95.1**
Repayments	**(30.5)**
Balance, June 30, 2023	**859.9**
Lease obligations due within one year	**56.7**
Lease obligations due beyond one year	**803.2**

7. Long-term Debt

	June 30, 2023	December 31, 2022
Syndicated credit facilities	**130.0**	—
Senior notes		
2.354% Cdn$ note	**450.0**	450.0
3.465% Cdn$ note	**550.0**	550.0
Total senior notes	**1,000.0**	1,000.0
Unamortized debt issuance costs	**(8.0)**	(10.0)
Total long-term debt outstanding	**1,122.0**	990.0

ARC's available credit capacity is $2.8 billion ($2.8 billion at December 31, 2022), of which $1.1 billion was outstanding at June 30, 2023 ($1.0 billion at December 31, 2022). At June 30, 2023, ARC was in compliance with all of its debt covenants.

At June 30, 2023, the fair value of all long-term debt outstanding was $1.0 billion ($0.9 billion at December 31, 2022).

8. Other Deferred Liabilities

Carrying Amount	
Balance, December 31, 2022	155.7
Additions	**11.5**
Amortization	**(10.3)**
Balance, June 30, 2023	**156.9**
Expected to be settled within one year	**20.7**
Expected to be settled beyond one year	**136.2**

9. Asset Retirement Obligation ("ARO")

ARC has estimated the net present value of its total ARO to be $400.7 million at June 30, 2023 ($394.3 million at December 31, 2022) based on a total future undiscounted liability of $528.9 million ($537.1 million at December 31, 2022). Management estimates that these payments are expected to be made over the next 59 years with costs being incurred evenly over those years. The Bank of Canada's long-term risk-free bond rate of 3.2 per cent (3.3 per cent at December 31, 2022) and an average inflation rate of 2.0 per cent (2.0 per cent at December 31, 2022) were used to calculate the present value of ARO at June 30, 2023.

The following table reconciles ARC's provision for its ARO:

	Six Months Ended June 30, 2023	Year Ended December 31, 2022
Balance, beginning of period	394.3	550.3
Development activities	**5.5**	10.0
Change in estimates (1)	**8.9**	28.6
Change in discount rate	**9.3**	(181.6)
Settlement of obligations (2)	**(9.8)**	(21.0)
Accretion	**6.3**	11.0
Assets disposed in period	**(13.8)**	(3.0)
Balance, end of period	**400.7**	394.3
Expected to be incurred within one year	**16.0**	16.0
Expected to be incurred beyond one year	**384.7**	378.3

(1) Relates to changes in cost estimates of future obligations and anticipated settlement dates of ARO.

(2) For the three and six months ended June 30, 2023, $nil and $0.4 million of obligations were indirectly settled through a government subsidy, whereby third-party service providers were reimbursed on behalf of ARC ($0.2 million and $0.5 million for the three and six months ended June 30, 2022).

10. Capital Management

ARC actively manages its capital structure and adjusts it in response to changes in economic conditions and the risk characteristics of its underlying assets. ARC has the ability to manage its capital structure by issuing new shares or new debt, repurchasing shares, or changing its dividend policy. During the six months ended June 30, 2023, ARC announced a 13 per cent dividend increase from $0.15 per share per quarter to $0.17 per share per quarter and repurchased 12.8 million common shares under its normal course issuer bid ("NCIB").

ARC's objective when managing its capital is to maintain a conservative structure that will allow it to:

- fund its development and exploration programs;
- maintain sustainable, meaningful returns of capital to shareholders through dividends and share repurchases; and
- maintain financial flexibility to execute on strategic opportunities.

Funds from Operations

ARC considers funds from operations to be a key measure of capital management as it demonstrates ARC's ability to generate the necessary funds to maintain production at current levels and fund future growth through capital investment. Management believes that such a measure provides an insightful assessment of ARC's financial performance on a continuing basis by eliminating certain non-cash charges and actual settlements of ARO, of which the nature and timing of expenditures are discretionary. Funds from operations is not a standardized measure and therefore may not be comparable with the calculation of similar measures by other entities.

Funds from operations for the three and six months ended June 30, 2023 and 2022 is calculated as follows:

	Three Months Ended June 30		Six Months Ended June 30	
	2023	2022	**2023**	2022
Cash flow from operating activities	**550.9**	1,092.6	**1,091.2**	1,851.4
Net change in other liabilities (Note 16)	**(13.9)**	31.2	**(0.2)**	72.0
Change in non-cash operating working capital (Note 16)	**23.8**	(94.1)	**187.2**	(150.1)
Funds from operations	**560.8**	1,029.7	**1,278.2**	1,773.3

Net Debt and Net Debt to Funds from Operations

Net debt and net debt to funds from operations are used by Management as key measures to assess the Company's liquidity position at a point in time. The determination of net debt and net debt to funds from operations is reflective of the measures used by Management to monitor its liquidity in light of operating and capital budgeting decisions. Net debt is not a standardized measure and therefore may not be comparable with the calculation of similar measures by other entities.

Management targets its net debt to be approximately 1.0 times funds from operations and manages its capital structure to achieve that target over the long term. At June 30, 2023, ARC's net debt was 0.4 times its funds from operations.

The following table details the composition of ARC's net debt and net debt to funds from operations as at June 30, 2023 and 2022:

	June 30, 2023	June 30, 2022
Long-term debt	**1,122.0**	1,247.6
Accounts payable and accrued liabilities	**595.5**	1,134.1
Dividends payable	**103.7**	79.9
Cash and cash equivalents, accounts receivable, and prepaid expense	**(540.1)**	(950.2)
Net debt	**1,281.1**	1,511.4
Funds from operations (1)	**3,217.4**	3,372.3
Net debt to funds from operations (ratio) (2)	**0.4**	0.4

(1) 12-month trailing funds from operations.
(2) Composed of net debt divided by 12-month trailing funds from operations.

11. Financial Instruments and Market Risk Management

Financial Instruments

At June 30, 2023, ARC's financial instruments include cash and cash equivalents, accounts receivable, long-term investments, risk management contracts, accounts payable and accrued liabilities, dividends payable, lease obligations, and long-term debt.

ARC's financial instruments that are carried at fair value on the unaudited condensed interim consolidated balance sheets (the "balance sheets") include cash and cash equivalents and risk management contracts. All of ARC's financial instruments carried at fair value are transacted in active markets, with the exception of ARC's natural gas embedded derivative.

ARC’s cash and cash equivalents are classified as Level 1 measurements and its risk management contracts and fair value disclosure for its long-term debt are classified as Level 2 measurements in the three-level fair value measurement hierarchy. The fair value of ARC's long-term debt is disclosed in Note 7 "Long-term Debt". There were no transfers between levels in the fair value hierarchy for the six months ended June 30, 2023.

The carrying values of ARC's accounts receivable, accounts payable and accrued liabilities, and dividends payable as at June 30, 2023 approximate their fair values due to the short-term nature of these instruments.

Natural Gas - Embedded Derivative

ARC's natural gas embedded derivative contract is classified as Level 3 within the fair value hierarchy, as the fair value is determined using internal models which incorporate significant unobservable inputs. These include energy price assumptions for unobservable periods for Japan Korea Marker ("JKM") and Chicago Citygate prices.

ARC recognizes a gain (loss) on risk management contracts in the statements of income related to the natural gas embedded derivative. The gain (loss) is determined by the relative movements in the JKM and Chicago Citygate price forecasts compared to the prior period balance sheet date. For the three and six months ended June 30, 2023, ARC recognized an unrealized loss on risk management contracts of $18.7 million and $7.7 million ($nil for the three and six months ended June 30, 2022), respectively. At June 30, 2023, the fair value of the natural gas embedded derivative was a liability of $11.7 million ($4.0 million at December 31, 2022).

The following table includes information regarding the fair value of the natural gas embedded derivative as at June 30, 2023:

Embedded Derivative	Net Asset (Liability) Fair Value	Valuation Approach	Significant Unobservable Input	Range of Significant Unobservable Input (US$/MMBtu)
Natural gas	(11.7)	Market approach incorporating present value techniques	The differential between JKM index and Chicago Citygate pricing (the "Differential")	$4.77 - $5.65

The following table demonstrates the sensitivity of the fair value of the natural gas embedded derivative at June 30, 2023, from reasonably possible changes in unobservable inputs inherent in the estimate.

Sensitivity of Embedded Derivative	Increase in Discount Rate of 1 Per Cent	Decrease in Discount Rate of 1 Per Cent	Increase in the Differential of 5 Per Cent	Decrease in the Differential of 5 Per Cent
Increase (decrease) in fair value	1.1	(1.2)	60.8	(60.8)

Financial Assets and Financial Liabilities Subject to Offsetting

The following is a summary of ARC's financial assets and financial liabilities that are subject to offsetting as at June 30, 2023 and December 31, 2022:

	Gross Amounts of Recognized Financial Assets (Liabilities)	Gross Amounts of Recognized Financial Assets (Liabilities) Offset on Balance Sheets	Net Amounts of Financial Assets (Liabilities) Recognized on Balance Sheets Prior to Credit Risk Adjustment	Credit Risk Adjustment	Net Amounts of Financial Assets (Liabilities) Recognized on Balance Sheets
As at June 30, 2023					
Risk management contracts					
Current asset	**118.6**	**(72.1)**	**46.5**	**(0.3)**	**46.2**

Foreign Exchange	Notional (US$ Millions)	Rate (Cdn$/US$)	Notional (US$ Millions)	Rate (Cdn$/US$)	Notional (US$ Millions)	Rate (Cdn$/US$)
Ceiling	408.0	1.3789	720.0	1.3812	180.0	1.3987
Floor	408.0	1.3037	720.0	1.3142	180.0	1.3250

(1) The prices and volumes in this table represent averages for several contracts representing different periods. The average price for the portfolio of options listed above does not have the same payoff profile as the individual option contracts. Viewing the average price of a group of options is purely for indicative purposes. All positions are financially settled against the benchmark prices.
(2) Natural gas prices referenced to NYMEX Henry Hub Last Day Settlement.

12. Shareholders' Capital

(thousands of shares)	**Six Months Ended June 30, 2023**	Year Ended December 31, 2022
Common shares, beginning of period	620,888	693,516
Repurchase of shares for cancellation	**(12,800)**	(74,574)
Issued on exercise of share options and long-term incentive awards	**337**	1,963
Unvested restricted shares held in trust pursuant to the LTRSA Plan [1]	**(12)**	(17)
Restricted shares vested pursuant to the LTRSA Plan	**29**	—
Common shares, end of period	**608,442**	620,888

(1) Unvested restricted shares held in trust pursuant to the Long-term Restricted Share Award ("LTRSA") Plan includes restricted shares purchased.

During the six months ended June 30, 2023, ARC repurchased 12.8 million common shares under its NCIB at a weighted average price per share of $15.85 for a total cost of $202.9 million.

At June 30, 2023, ARC has recognized a liability of $20.0 million ($24.8 million at December 31, 2022) for share repurchases estimated to take place during its internal blackout period under an automatic share purchase plan agreement with an independent broker. The transaction has been recognized as a reduction to share capital of $11.9 million and a reduction to retained earnings of $8.1 million.

Net income per common share has been determined based on the following:

	Three Months Ended June 30		Six Months Ended June 30	
(thousands of shares)	**2023**	2022	**2023**	2022
Weighted average common shares	**609,737**	674,911	**613,668**	681,805
Dilutive impact of share-based compensation (1)	**1,763**	1,918	**1,692**	1,789
Weighted average common shares, diluted	**611,500**	676,829	**615,360**	683,594

(1) For both the three and six months ended June 30, 2023, 0.7 million of share-based compensation awards were excluded from the diluted weighted average shares calculation, as they were anti-dilutive (1.3 million for both the three and six months ended June 30, 2022).

Dividends declared for the three and six months ended June 30, 2023 were $0.17 and $0.32 per share ($0.12 and $0.22 for the three and six months ended June 30, 2022), respectively.

13. Commodity Sales from Production

ARC derives its revenue from contracts with customers primarily through the transfer of commodities at a point in time representing the following major product types:

Commodity Sales from Production,	Three Months Ended June 30		Six Months Ended June 30	
by Product	**2023**	2022	**2023**	2022
Crude oil	**64.8**	101.6	**130.6**	180.8
Condensate	**641.6**	951.1	**1,307.6**	1,733.5
Natural gas	**332.4**	1,007.0	**1,002.5**	1,696.0
NGLs	**85.9**	151.9	**211.5**	278.3
Total commodity sales from production	**1,124.7**	2,211.6	**2,652.2**	3,888.6

At June 30, 2023, accounts receivable from contracts with customers, which are included in accounts receivable, were $392.1 million ($835.3 million at December 31, 2022).

14. Share-based Compensation Plans

Long-term Incentive Plans

The following table summarizes the changes in the Restricted Share Unit ("RSU"), Performance Share Unit ("PSU"), and Deferred Share Unit ("DSU") awards under plans that existed prior to a business combination (the "Legacy Plans") for the six months ended June 30, 2023:

Legacy Plans (number of awards, thousands)	**RSUs**	**PSUs** (1)	**DSUs**
Balance, December 31, 2022	2,687	5,560	726
Granted	**493**	**656**	**72**
Distributed	**(840)**	**(2,316)**	**(19)**
Forfeited	**(57)**	**(51)**	**—**
Balance, June 30, 2023	**2,283**	**3,849**	**779**

(1) Based on underlying awards before any effect of the performance multiplier.

The following table summarizes the changes in the RSU, PSU, and DSU awards under plans acquired through a business combination (the "Acquired Plans") for the six months ended June 30, 2023:

Acquired Plans (number of awards, thousands)	**RSUs**	**PSUs** [1]	**DSUs**
Balance, December 31, 2022	191	126	437
Granted [2]	**2**	**1**	**8**
Distributed	**(177)**	**(114)**	**(36)**
Forfeited	**(1)**	**—**	**—**
Balance, June 30, 2023	**15**	**13**	**409**

(1) Based on underlying awards before any effect of the performance multiplier.
(2) Grants relate to additional performance awards for grants that vested in the current period.

Compensation charges relating to the RSU Plan, PSU Plan, and DSU Plan of the Legacy and Acquired Plans are reconciled as follows:

	Three Months Ended June 30		Six Months Ended June 30	
	2023	2022	**2023**	2022
General and administrative ("G&A")	**22.4**	8.7	**21.0**	50.6
Operating	**2.0**	0.8	**1.3**	4.0
PP&E	**7.3**	1.8	**6.2**	13.8
Total compensation charge	**31.7**	11.3	**28.5**	68.4
Cash payment	**0.8**	6.6	**53.7**	47.8

At June 30, 2023, compensation amounts of $38.4 million were recognized in accounts payable and accrued liabilities on the balance sheets ($70.3 million at December 31, 2022) and $54.8 million was included in long-term incentive compensation liability ($48.1 million at December 31, 2022).

Share Option Plans

The changes in total share options outstanding and related weighted average exercise prices of share options outstanding under the Legacy Plans for the six months ended June 30, 2023 were as follows:

Legacy Plans	**Share Options (number of units, thousands)**	**Weighted Average Exercise Price ($)**
Balance, December 31, 2022	2,599	13.51
Exercised	**(305)**	**16.77**
Forfeited	**(3)**	**11.03**
Expired	**(235)**	**17.75**
Balance, June 30, 2023	**2,056**	**12.17**
Exercisable, June 30, 2023	**2,056**	**12.17**

The changes in total share options outstanding and related weighted average exercise prices of share options outstanding under the Acquired Plans for the six months ended June 30, 2023 were as follows:

Acquired Plans	**Share Options (number of units, thousands)**	**Weighted Average Exercise Price ($)**
Balance, December 31, 2022	1,182	19.12
Exercised	**(33)**	**11.05**
Forfeited	**(26)**	**25.95**
Balance, June 30, 2023	**1,123**	**19.19**
Exercisable, June 30, 2023	**1,123**	**19.19**

The following table summarizes information regarding share options outstanding at June 30, 2023, all of which are exercisable:

Range of Exercise Price per Common Share ($)	Number of Share Options Outstanding (thousands)	Weighted Average Exercise Price per Share for Options Outstanding ($)	Weighted Average Remaining Term (years)
5.98 - 11.00	270	8.90	5.1
11.01 - 14.00	2,185	12.26	1.7
14.01 - 18.00	70	15.43	3.3
18.01 - 22.00	59	20.49	3.7
22.01 - 27.89	595	25.35	3.5
Total	**3,179**	**14.65**	**2.4**

LTRSA Plan

The changes in total LTRSA outstanding and related fair value per restricted share for the six months ended June 30, 2023 were as follows:

	Granted Prior to 2020		Granted Subsequent to 2019	
	LTRSA (number of awards, thousands)	Fair Value per Restricted Share ($)	LTRSA (number of awards, thousands)	Fair Value per Restricted Share ($)
Balance, December 31, 2022	776	12.15	217	6.45
Restricted shares purchased	**10**	**16.73**	**2**	**16.73**
Distributed	**(29)**	**18.01**	**—**	**—**
Forfeited	**—**	**—**	**(10)**	**6.17**
Balance, June 30, 2023	**757**	**11.99**	**209**	**6.59**
